Helping Elders and Communities of Color to Pay for Voice and Internet Service: An Overview of the Federal Lifeline Program

August 31, 2015

Olivia Wein, National Consumer Law Center
Julie Nepveu, AARP Foundation Litigation
Michael J. Scurato, National Hispanic Media Coalition
The project on Racial Justice and Equal Economic Opportunity seeks to address the abusive and exploitative practices in the marketplace that have decimated the finances of communities of color.

Olivia is NCLC’s Telecom Project Lead Attorney. Over the years, Olivia has been involved in state and federal Lifeline proceedings, particularly the Lifeline reforms leading to the FCC’s 2012 Order and the current FCC proceeding to modernize the program.

Olivia serves on the Federal Communications Commission’s Consumer Advisory Committee and co-chairs the Universal Services Working Group.

Olivia also serves on the Universal Service Administrative Company’s (USAC) Board of Directors. USAC is an independent, not-for-profit corporation designated by the Federal Communications Commission (FCC) as the administrator of universal service.
Presenter – Julie Nepveu

- Julie is a Senior Attorney at AARP Foundation Litigation. She works on a wide range of consumer protection matters, affordable utilities, fair housing, and disability rights. Julie litigates impact cases and files amicus briefs on issues affecting older persons in courts across the country.

- Previously, Julie worked as a Staff Attorney in the Housing and Community Development Project of the Lawyers’ Committee for Civil Rights Under Law and served as the Legal Director for the National Coalition for Disability Rights.

- She also represented tenants in landlord tenant and subsidized housing matters at Legal Services of Northern Virginia. Julie received her JD from the University of Maine School of Law.
Presenter – Michael Scurato

• Michael is the Vice President of Policy for the National Hispanic Media Coalition. He joined NHMC's Washington, D.C. policy team in 2010 when he was hired as a Law Fellow after earning acceptance to Georgetown Law’s Post-JD Public Service Fellowship Program.

• While in law school, Michael represented the public interest in media and telecommunications law issues at the Institute for Public Representation.

• Michael earned his J.D. from Georgetown University Law Center and his B.A. in political science from New York University. He is currently admitted to the District of Columbia, New Jersey and New York bars.

Necessity of Landline Phone Services

• Telephone service is a basic necessity (particularly for older people and individuals with disabilities)
  – maintain social contact, preserve health and safety, and call for assistance in an emergency.

• Landline service necessary for:
  – medical monitoring of pacemakers,
  – implantable cardiac defibrillators,
  – home security systems
  – more reliable than wireless during extreme weather or other emergencies; available even when the power goes out.

• People age 65+ more likely to rely on landline than wireless service.
Quick Facts About Lifeline

• Provides about $1.6 billion in support and helped around 13 million households in 2014 through Universal Service Fees.
• Only one benefit per household/economic unit (worksheet available for multiple economic units at one address).
• Consumers can choose between Landline or wireless service and select provider.
• Lifeline benefit ($9.25/month) can supplement all residential service packages (not equipment) that include voice, including bundles and family shared calling plans.
How to Apply for Lifeline

• In most states, consumers will apply for Lifeline through the carrier.
• There are numerous Lifeline carriers in all the states, so consumers can shop around for the best Lifeline product that meets the household’s needs.
• Participants can change Lifeline providers if not happy with service.
Finding Lifeline Providers

Map of Lifeline providers and info available from the Universal Service Administrative Company at: http://www.lifelinesupport.org/ls/companies/companies.aspx

COMPANIES IN MY STATE

Use the Lifeline Program Pre-Screening tool or read the eligibility requirements to learn whether you qualify for discounted service.

If you have already determined that you are eligible, use the map below to locate a Lifeline Program provider in your state.
Common Eligibility Criteria

• Available to eligible low-income consumers in every state and territory. Enhanced Lifeline for those living on tribal lands.

• **Proof of Income** – Household income below 135% of poverty.

• **Participation** in the following programs:
  – Supplemental Nutrition Assistance Program (SNAP)
  – Medicaid
  – Supplemental Security Income (SSI)
  – Low Income Home Energy Assistance Program (LIHEAP or HEAP)
  – Federal Public Housing Assistance (FPHA) or Section 8
  – Temporary Assistance for Needy Families (TANF)
  – National School Lunch Program

• States may also adopt additional qualifying programs.

Perspectives on 135% of poverty

• $1324/month income limit for single person;
• $1792/month for 2 person household;
• In 2013 the average monthly Social Security benefit for a retired worker was $1,294;
• 45% of adults 65+ have incomes below 200 percent of the federal poverty guideline;
• Approximately 9 M older individuals are food insecure, and nearly 10 M have such severe housing cost burdens that they restrict critical food and health care expenditures.
Cost of Service v. $9.25 Benefit

- 1984: basic phone expense: $36/month (25%).
- 2013: landline + mobile service: $108/month (8.5%).
- Average Phone + low cost broadband plan costs about $150 per month (6.1%).
- Lifeline benefit does not cover equipment costs; Many people do not own a computer:
  - 48% income < $25,000
  - 47% with disability
  - 44% age 65+
  - 37% African American
  - 38% Hispanic
Lifeline Benefits for Broadband?

- 2/3 of people who use broadband get a bundled service.
- Essential to protect the availability of basic, unbundled, low cost landline service.
- Must adopt strong consumer protections, especially for people who have never had broadband at home, vulnerable older people.
- Consider raising revenue through Universal Service Fee on Broadband.
Setting the Stage:  
The Digital Divide
Broadband Adoption Divides

Home broadband adoption rates:

• 47 percent for households with income below $25,000;
• 64 percent for African Americans;
• 53 percent for Latinos;
• 63 percent for people with disabilities;
• 51 percent for people with limited English proficiency;
• 43 percent for people over 65; and
• 38 percent for households that prefer Spanish.
Are we headed in the right direction?

Why are people offline?

• Affordability is often the main barrier preventing people from getting online. (NTIA Digital Nation report).
  – High cost is the number one reason that Latinos, people under 65 fail to adopt broadband at home.

• Affordability is the top reason that people fall offline. (NTIA Digital Nation report; Pew Smartphone Report).
  – High cost is the number one reason that people cancel their service.
• Affordability is a significant reason for not having home internet, especially for lower income households (cited by 32% under $25,000 but only 18% over $50,000).

• 51% of households with incomes less than $25,000 that once, but no longer, used Internet at home cited the expense.

• Significant % do not have computers.

Source: Exploring the Digital Nation: America’s Emerging Online Experience
Affordability cited as reason for not having internet at home by greater percentage of African American and Hispanic households.

Source: Exploring the Digital Nation: America's Emerging Online Experience
Affordability was the most-cited factor for households switching providers.

Source: Exploring the Digital Nation: America's Emerging Online Experience
Unique Challenge: Education

- Testing, homework, tutoring, distance learning opportunities are all moving online.
- Nearly 100% of high school students required to access the Internet to complete homework outside of school. (Hispanic Heritage Foundation/Family Online Safety Institute survey).
  - 50% unable to complete an assignment due to lack of access to Internet or computer.
  - 42% received a lower grade due to lack of access.
- 5 million households with school-aged children do not have high-speed Internet access at home. (Pew Homework Gap research).
Lifeline Modernization
FCC Federal Lifeline Modernization Proceeding

• June 22, 2015, the FCC released a Notice of Proposed Rulemaking to Modernize Lifeline

• Key Dates
  – August 31, 2015 Opening Comments Due
  – September 30, 2015 Reply Comments Due
  – The hope is that an Order will be voted out of the FCC near the turn of the new year.
What will the FCC explore?

This Lifeline NPRM is looking at substantial changes to the Lifeline program, including:

• Including broadband service in addition to voice options

• Moving from carriers handling Lifeline enrollment to a national Lifeline eligibility verifier
Lifeline Modernization Issues

- Explores Minimum Service Standards for Voice and Broadband
- Asks about putting Lifeline on a budget.
- Asks for comment on the program administration design, e.g., Who should perform the eligibility determinations? Should there be coordination with other federal programs?
- How to increase competition for Lifeline Consumers
- Seeks feedback on specific proposals re Lifeline program administration
Opportunities for Input

There is an FCC Express comments site for brief comments:

http://apps.fcc.gov/ecfs/hotdocket/list;NEWECFSSESSION=RTn7VjyBgPCvLrp12Fhz2GmpvX9Qv1gyJhpTL5hv1Sg3Xc7j3gwI457782500!1767259825
Lifeline on the Hill
Lifeline Threats and Opportunities

• Opportunity
  – Congresswoman Matsui, along with Senator Murphy and Senator Booker, introduced the Broadband Adoption Act of 2015 in June. (H.R. 2638; S. 1472).
    • Directs FCC to move Lifeline to broadband.
    • Recognizes FCC’s existing authority to do so.

• Threat
  – Possible amendment to Financial Services and General Government Appropriations Bill.
    • Preventing Lifeline funds from supporting wireless Internet access.
    • Rep. Tom Graves (R-GA) or another Member.
    • Could be considered on the floor during the week of July 13th.
