Interest rate limits are the simplest and most effective protection against predatory lending. Since the time of the American Revolution, states have limited interest rates to protect their residents. American voters strongly support interest rate caps. At least 45 states and the District of Columbia (DC) cap rates on at least some installment loans.

But high-cost lenders are increasingly using rent-a-bank schemes with a small number of rogue banks, which are not subject to state interest rate limits, to evade state rate caps on installment loans and lines of credit. Several high-cost consumer lenders – American First Finance, Axcess Financial, EasyPay, Elevate, Enova, LoanMart, OppLoans, Personify Financial, and Total Loan Services (through EZ$Money Check Cashing, LoanMe, Lendly LLC, MoneyKey, Quickcredit.com, and SunUp Financial) – are laundering loans through six FDIC-supervised banks: Community Capital Bank, FinWise Bank, First Electronic Bank, and TAB Bank of Utah; Republic Bank & Trust of Kentucky; and Lead Bank of Missouri.

Rent-a-bank schemes are of questionable legality. Lenders pick and choose where they lend, generally avoiding states that vigorously enforce their laws. Check out our Take Action page, sign our petition and share your story to see what you can do to help fight rent-a-bank lending!

Watch out for These High-Cost Lenders and Their Bank Partners
Duvera Billing Services dba EasyPay Finance offers high-cost credit through businesses across the country that sell auto repairs, furniture, home appliances, pets, wheels, and tires, among other items – including predatory puppy loans. EasyPay’s website does not disclose its rates, but examples from consumers in some states include $1,500 loans at **188.99% APR**. EasyPay extends credit through FDIC-supervised Transportation Alliance Bank dba TAB Bank (Utah) in several states, that may not allow that rate. EasyPay’s website states that it administers financing directly in other states, most likely under state lending or retail installment sales laws.
