Right to Electric Service

If you have a financial hardship you (or anyone presently and normally living in your home) have a Right to Electric Service in the following situations:

- **During serious illness:** Contact your registered physician, physician assistant, nurse practitioner or local Board of Health official and have them telephone the Company immediately at 1-888-211-1313. Within seven (7) days of the phone call your registered physician, physician assistant, nurse practitioner or local Board of Health official must certify in writing, to the Company, that serious illness exists. The certificate protects against termination for 90 days (180 days if chronic illness) and may be renewed. Your failure to renew such certification of serious illness as set out above may result in your service being terminated.

- **You have a child under twelve months old living in the home.**
- **All adults in the home are age 65 or older and a minor also resides in the home.**
- **Between November 15 and March 15 if your service is heat related.**

- **Elderly Household:** If all residents in your household are 65 years of age or older, the Company cannot terminate your service for failure to pay a past due bill without the approval of the Massachusetts Department of Public Utilities (DPU).

- **For additional information on the right to electric service, please contact our Credit Department at 1-888-211-1313 or visit www.nationalgrid.com**

Case scenario

- Sheila Robinson comes into your office on December 10 and tells you that her family's gas service was terminated around a month ago because she owes over \$2,000 in back bills. She says that she has been unable to keep up with her bills and seems very depressed.
- She has a gas furnace and gas stove, so her family does not have heat, hot water, or the ability to cook. She owes about \$800 on her electric bill and fears she will get a shut-off notice for that soon too, which would leave her family without light and refrigeration.
- Ms. Robinson's family includes herself, her nine-year old daughter, her seven-year-old son, her sister, and her sister's newborn infant. The family's income consists of TAFDC and her sister's SSI check.

- Company must challenge letter if questions.

- Service can be restored, should seek the protection ASAP and within 90 days of utility disconnection

STEP #1 PROTECTIONS

STEP #1 PROTECTIONS

 - No termination at all if low-income

STEP #1 PROTECTIONS

- Terms of AMPs?
 - Each utility is slightly different (e.g., Eversource cap of \$12,000, Berkshire Gas cap of \$3,000)
 - Different options to re-enroll after dropping out of AMP, may have to make up some missed payments
 - Summary of AMP terms by company:
<https://bit.ly/IOU-AMP-rules>.

- Energy Efficiency
 - Contact local LIHEAP/Fuel Assistance program or Mass Save
- Weatherization Assistance Program (WAP)
- HEARTWAP program
- Utility programs
- Local resources

Case scenario - Discussion

Putting Theory Into Practice

- Consult resources
 - *Utilities Advocacy for Low-Income Households in Massachusetts,*
<https://www.nclc.org/resources/utilities-advocacy-for-low-income-households-in-massachusetts-2019-4th-edition/>
- Resolving disputes:
 - Call the utility company first
 - Gather bills and information
 - Contact DPU Consumer Division if not satisfied:
 - (877) 866-5066
 - DPUConsumer.Complaints@mass.gov
 - Informal process, customers and non-attorney advocates may file complaints

Different ways to buy electric and gas supply

Either one of these -

- Utility company (distribution utility, IOU)
- Community Choice Aggregation (CCA, municipal aggregation)
- Non-utility energy supply company (competitive supply company)

Or this, in some areas -

- Municipal Utilities in some cities and towns (e.g., Braintree, Chicopee, Holyoke, Middleborough, North Attleborough, Peabody, Reading, Wakefield, etc.)

Competitive Supply Companies

- May sell electricity or gas
- Door to door marketing and telemarketing, often misrepresenting the identity of the company and the prices
- Usually more expensive
- Not the same as “municipal aggregation” or “community choice aggregation”
- Contact NCLC
- Complaints accepted by Attorney General and DPU

Competitive Energy Supply —Buyer Beware

- Mass. deregulated its electricity supply market in 1997 and market for gas soon after that
- Purpose of deregulation was to spur innovation and competition but not what has resulted
- The individual market for competitive energy supply is almost always a bad deal. Large & numerous losers. Small & rare winners.
 - Municipal aggregation is different—where municipalities buy in bulk from a supplier; is often in fact cheaper for consumers
 - City of Boston municipal aggregation info:
<https://www.boston.gov/departments/environment/community-choice-electricity>
- Mass. AGO report found that individual residential customers who received their electricity from competitive suppliers paid over \$577 million more on their bills since 2015,
<https://www.mass.gov/competitive-electric-supply>
