## ABOUT THE NATIONAL CONSUMER LAW CENTER

Since 1969, the nonprofit National Consumer Law Center® (NCLC®) has used its expertise in consumer law and energy policy to work for consumer justice and economic security for low-income and other disadvantaged people, in the United States. NCLC's expertise includes policy analysis and advocacy; consumer law and energy publications; litigation; expert witness services; and training and advice for advocates. NCLC works with nonprofit and legal services organizations, private attorneys, policymakers, and federal and state governments and courts across the nation to stop exploitive practices, help financially stressed families build and retain wealth, and advance economic fairness.

## ABOUT THE AUTHOR

**Michael Best** is a staff attorney at the National Consumer Law Center, where he advocates for state policies that protect low-income families' essential income and assets. Previously, he was the director of advocacy outreach at Consumer Federation of America, where he worked to build and strengthen coalitions around consumer advocacy work in the financial services sphere. Before joining the consumer movement, he worked in the labor movement at Change to Win. Michael is a graduate of Northeastern University School of Law and Northeastern University in Boston.

**Carolyn Carter** is deputy director of the National Consumer Law Center and has specialized in consumer law issues for over 30 years. She is co-author or contributing author of a number of NCLC legal treatises, including [Collection Actions](#), [Consumer Credit Regulation](#), and [Fair Debt Collection](#). Previously, she worked for the Legal Aid Society of Cleveland, as a staff attorney and as law reform director, and was co-director of a legal services program in Pennsylvania. She has served as a member of the Federal Reserve Board's Consumer Advisory Council. Carolyn is a graduate of Brown University and Yale Law School and is admitted to the Pennsylvania bar.

## ACKNOWLEDGEMENTS

NCLC thanks Mary Kingsley, a Massachusetts attorney, for extensive research and analysis; NCLC attorneys April Kuehnhoff, Lauren Saunders, Margot Saunders, and John Rao, and NCLC Senior Utility Analyst John Howat for analysis, advice, and review; Senior Fellow Bob Hobbs for his significant contributions to the 2013 version of this report; Chief Communications Officer Michelle Deakin and NCLC Communications Manager Stephen Rouzer for communications support; Julie Gallagher for the design; NCLC Researcher Anna Kowanko for research and fact-checking; and NCLC Researcher Maggie Westberg for proofreading. NCLC also thanks the Annie E. Casey Foundation, whose support of our work made this report and much more possible. The views expressed in the report are solely those of NCLC and the authors.

MAP 1 **OVERALL RATINGS: THE STRENGTH OF STATE PROTECTIONS FOR FAMILY FINANCES**

- A** 1 state has strong protections in all five categories
- B** 11 states have strong protections in most categories
- C** 18 states' protections have many gaps and weaknesses
- D** 18 states have weak protections
- F** 5 states have extremely weak protections

For detail, see protection of [wages](#), the [home](#), the [family car](#), a basic amount in a [bank account](#), and [household goods](#). See the [State Summaries](#) for state-by-state explanations of these ratings.

State exemption laws, which protect income and property from seizure by creditors, debt buyers, and the debt collectors they hire, are a fundamental safeguard for families. Exemption laws are designed to protect consumers and their families from poverty, and to preserve their ability to be productive members of society and achieve financial rehabilitation.

These protections are particularly important as soaring inflation drives up the cost of basic necessities and families no longer have pandemic protections to fall back on. Yet *not one* jurisdiction meets five basic standards:

- Preventing creditors from seizing so much of the debtor’s wages that the debtor is pushed below a living wage;
- Allowing the debtor to keep a used car of at least average value;
- Preserving the family’s home—at least a median-value home;
- Preserving a basic amount in a bank account so that the debtor’s funds to pay essential costs such as rent, utilities, and commuting expenses are not cleaned out; and
- Preventing seizure and sale of the debtor’s necessary household goods.

This report details the extent to which states protect families in each of these five areas.

**Best states:** **Arizona** went from a D in last year’s report to the highest grade in the nation with an A this year. An Arizona ballot initiative increased a wide array of protections, from wage and bank account seizure to the family home and household goods, but the state still falls short of protecting a living wage.<sup>1</sup> **Massachusetts**, which modernized its archaic exemption laws in 2010, and **Nevada**, which also recently improved its laws, come next closest to meeting these five basic standards, each rating a high B grade. Solid B states include **Connecticut, the District of Columbia, Maine, Puerto Rico, and Texas**, while **California, New York, Oklahoma, and South Carolina** rate low B grades.

**Worst states:** At the opposite end of the scale are several states whose exemption laws reflect indifference to struggling debtors. These states allow creditors—or the debt collectors they hire—to seize nearly everything a debtor owns, even the minimal items necessary for the debtor to continue working and providing for a family. **Georgia, Kentucky, Michigan, New Jersey, and Utah** are the worst and rate an F. Meanwhile, **Arkansas, Pennsylvania, and Wyoming** are nearly as bad, rating low D grades.

During the past 12 months, several states amended their laws to make improvements in these protections. **Arizona, California, and Colorado made**

particularly significant improvements. In addition, California passed S.B. 1099, effective January 1, 2023, which improves the exemptions available to a debtor who files bankruptcy.

## WHY STATE EXEMPTION LAWS ARE IMPORTANT

State exemption laws are a fundamental protection for families. Without these laws, once a creditor obtained a ruling from a court that a consumer owed it a sum of money, the creditor could seize the debtor's entire paycheck, bank account, car, and household goods, and sell the debtor's home. Exemption laws place limits on these seizures. They are designed to protect consumers and their families from poverty, and to preserve their ability to be productive members of society and to recover and achieve financial rehabilitation.

The COVID-19 pandemic exposed the enormous gaps in the states' exemption laws. Only when stimulus checks started going out to families' bank accounts did many states realize that they had *no* protection for a basic amount in a bank account. As workers lost jobs and hours, states scrambled to institute moratoriums on wage seizure, bank account balance seizure, and collection lawsuits. While employment has since recovered, the highest inflation rates in a generation are once again pushing families to the breaking point as the cost of basic necessities soars.

Increasing costs are forcing families to take on a mountain of debt. People struggling to get back on their feet after the one-two punch of a pandemic and inflation are likely to face a wave of lawsuits for medical bills, back rent, credit card debt, the balance due on repossessed cars, and even utility bills.

Exemption laws are particularly important because they protect cars, work tools, and other property that consumers need to stay in the workforce. When

### She Didn't Know She Still Owed Money to Her Utility. Then 25% of Her Paycheck Was Gone.

Last November, Kristal Dailey looked at her weekly paycheck and realized about \$150 was missing, a quarter of her take-home earnings from a factory just outside Detroit, where she makes just over \$18 an hour. "I'm like, 'What the heck is this from?'" she said. Dailey immediately reached out to her company's human resources department. That's when embarrassment and then anger replaced her initial shock. Her check, she learned, was being garnished over a \$1,500 debt that was at least five years old. The money was being taken by a collection company she'd never heard of, after a court hearing she hadn't attended. The garnishment went on for more than eight weeks; no matter how much she worked, 25% of her wages were garnished. "It was terrible," she said. "I just had a baby, just got back to work. For them to start taking \$150, \$160 out was drastic to me."

Source: Excerpted from Sarah Alvarez, *Pro Publica*, "She Didn't Know She Still Owed Money to Her Utility. Then 25% of Her Paycheck Was Gone." (Aug. 19, 2022).

individuals lose their jobs, the consequences fall not just on them and their families, but also on landlords, local merchants, and other creditors that the consumer might have paid.

Without improved exemption laws, seizures by debt collectors will drain away the wages and resources that families need—and that the local economy needs them to be spending at Main Street businesses. Reform of exemption laws not only protects families from destitution but can also act as an economic stimulus tool that steers money into state and local communities. By protecting families from impoverishment, exemption laws also save costs that taxpayers would otherwise have to bear for services such as emergency shelter and foster care.

Exemption laws also deter predatory lending. Creditors are less likely to make unaffordable loans if they know they will have to rely on the consumer's ability to repay the debt, not on seizure of the consumer's essential property. The gaps in exemption laws also give debt collectors enormous leverage. By threatening to take a debtor's essential personal property, such as the family car or household goods, a debt collector may persuade a debtor to use the money needed for rent or medicine to pay an old credit card bill that ought to be a much lower priority.

Exemption laws are primarily an area of state authority. Federal law requires employers to protect a small amount of a debtor's wages from creditors: 75% of wages or 30 times the federal minimum wage per week. At the current minimum wage of \$7.25 an hour, the federal protection does not even reach the poverty level, but states can protect more. In addition, federal bankruptcy law provides its own set of exemptions for debtors who file bankruptcy. However, states are allowed to opt out and replace the federal bankruptcy exemptions with their own, and many have done so. Moreover, since only a small percentage of consumers in financial distress file for bankruptcy,<sup>2</sup> most distressed consumers depend on the rules that apply in state debt collection lawsuits, not the rules that apply in bankruptcy court, for their protection. Accordingly, while this report includes some federal recommendations, it focuses on the laws that apply to debtors who do not file bankruptcy.

A full analysis of state exemption laws and their interpretation can be found in National Consumer Law Center's *Collection Actions* (5th ed. 2020). An appendix to that book includes detailed summaries of each state's exemption laws.

## *Toxic Mix: How the Wealth Gap Creates a Bigger Debt Burden for Black and Latinx Families*

The extent to which states protect consumers' income and assets from seizure by creditors is particularly important for communities of color, as weak exemption laws build on, and widen, the racial wealth gap. Communities of color are disproportionately burdened by debt,<sup>3</sup> and disproportionately subject to judgments in collection lawsuits<sup>4</sup> and wage seizure.<sup>5</sup>

These disparities are not surprising, given the country's vast and long-standing racial wealth gap. The median income for white households in 2019 was nearly \$75,000, compared to just about \$47,000 for Black households, and \$60,000 for Latinx households.<sup>6</sup>

Differences in assets needed to weather shocks are even more stark. When hit with challenging financial times, Black and Latinx households have less of a safety net to draw on. While white families have a median wealth of \$189,100, Black families have just \$24,100 and Hispanic families just \$36,100.<sup>7</sup> A typical white family has \$8,000 in reserve for emergencies, compared to just \$1,500 for Black families and \$2,000 for Latinx families.<sup>8</sup>

Not only do communities of color have fewer assets to cushion financial shocks, but they are also more likely to experience those shocks or to have income so low that even small bumps are mountains. Black and Hispanic households disproportionately experience unemployment.<sup>9</sup> While the poverty rate in 2021 was 48.1% for non-Hispanic white households, Black and Hispanic households had much higher poverty rates of 19.5% and 17.1% respectively.<sup>10</sup>

The roots of these disparities can be traced in part to systematic, government-sponsored exclusion of Black families from homeownership opportunities, the most significant form of wealth-building and financial stability for most Americans. For example, when the federal government first embarked on a program of long-term federally-backed mortgage loans in the 1930s to enable Americans to become homeowners, it systematically excluded Black neighborhoods.<sup>11</sup> Banks continue to deny credit to potential Black and Latinx home buyers at a much higher rate than potential white buyers,<sup>12</sup> and Black and Latinx borrowers pay hundreds of millions of dollars more collectively on their mortgages every year, due to higher average interest rates.<sup>13</sup>

Not only do households of color have fewer resources to draw from, but often these households must spend more on everyday expenses as well. For instance, Black households pay hundreds of dollars more a year on their energy bills than white households,<sup>14</sup> and families in predominantly non-white urban neighborhoods pay more for food.<sup>15</sup> Black borrowers owe, on average, \$25,000

more in student loans than white borrowers,<sup>16</sup> and are charged higher interest rates on car loans and more for car insurance.<sup>17</sup> Neighborhoods of color are also disproportionately targeted by predatory lenders.<sup>18</sup>

### *How State Exemption Laws Work*

Exemption laws come into play when a creditor goes to court and obtains a judgment against a consumer. A judgment is a decision from the court that the consumer owes a specific sum of money. The creditor can then take steps to seize the consumer's wages or property to pay the debt. Typically, the creditor asks the court or an official, such as a sheriff, to seize property (attachment), order the consumer's employer to withhold a portion of the consumer's wages (wage seizure or wage garnishment), or order a bank to pay the consumer's funds to the creditor (bank account seizure or garnishment). The creditor can also place a "judgment lien" on the consumer's real estate and then foreclose on that lien, forcing sale of the home.

The state's exemption laws specify how much of the consumer's wages and property the creditor can seize and how much it cannot seize. Limits on wage seizure are generally self-enforcing—the law requires the debtor's employer to be instructed to withhold only the non-exempt amount of the debtor's wages, so the debtor does not have to take affirmative steps to claim this protection. In a few states, some other exemptions are self-executing. However, in many states, the property will not be protected unless the debtor takes various procedural steps—typically, filing papers in court or attending hearings—to claim the exemptions. These steps are often daunting for consumers, who are typically left to navigate the judicial system on their own without attorneys.

Many states provide earmarked exemptions for particular types of property. For example, **Arizona** exempts a home worth up to \$400,000, a car worth \$15,000, \$5,000 in a bank account, and \$15,000 in household goods. Other states provide a wildcard exemption—one that the debtor can use to protect a variety of types of property. For example, **Mississippi** protects a home worth \$75,000, but then provides a \$10,000 wildcard exemption to cover the debtor's car, bank account, household goods, and all other property. Since different debtors will choose to apply a wildcard exemption in different ways, it is hard to compare the level of protection that a state provides for a particular type of property. In this report we have therefore assumed that a debtor will apply most of the wildcard first to protect a family car, then to protect a basic amount in a bank account, and then, if any of the wildcard is left, to protect household goods. This approach standardizes the treatment of the wildcard and avoids double-counting it.

Because of inflation and changes in society, exemption laws can become irrelevant simply due to the passage of time. States can reduce the erosion of these critical protections by building in automatic inflation adjustments. **Alaska** is one example: the dollar amounts in its exemption law are adjusted by statute every second year to reflect changes in the Consumer Price Index. Laws in **Alabama, Alaska, Arizona, California, Indiana, Maine, Minnesota, Nebraska, New York, Ohio, South Carolina, and Utah** also provide for automatic inflation adjustments.<sup>19</sup> It is surprising that more states have not adopted this simple, yet fair and effective approach.

## PROTECTION OF WAGES: CAN A CREDITOR REDUCE A DEBTOR TO BELOW THE POVERTY LEVEL?

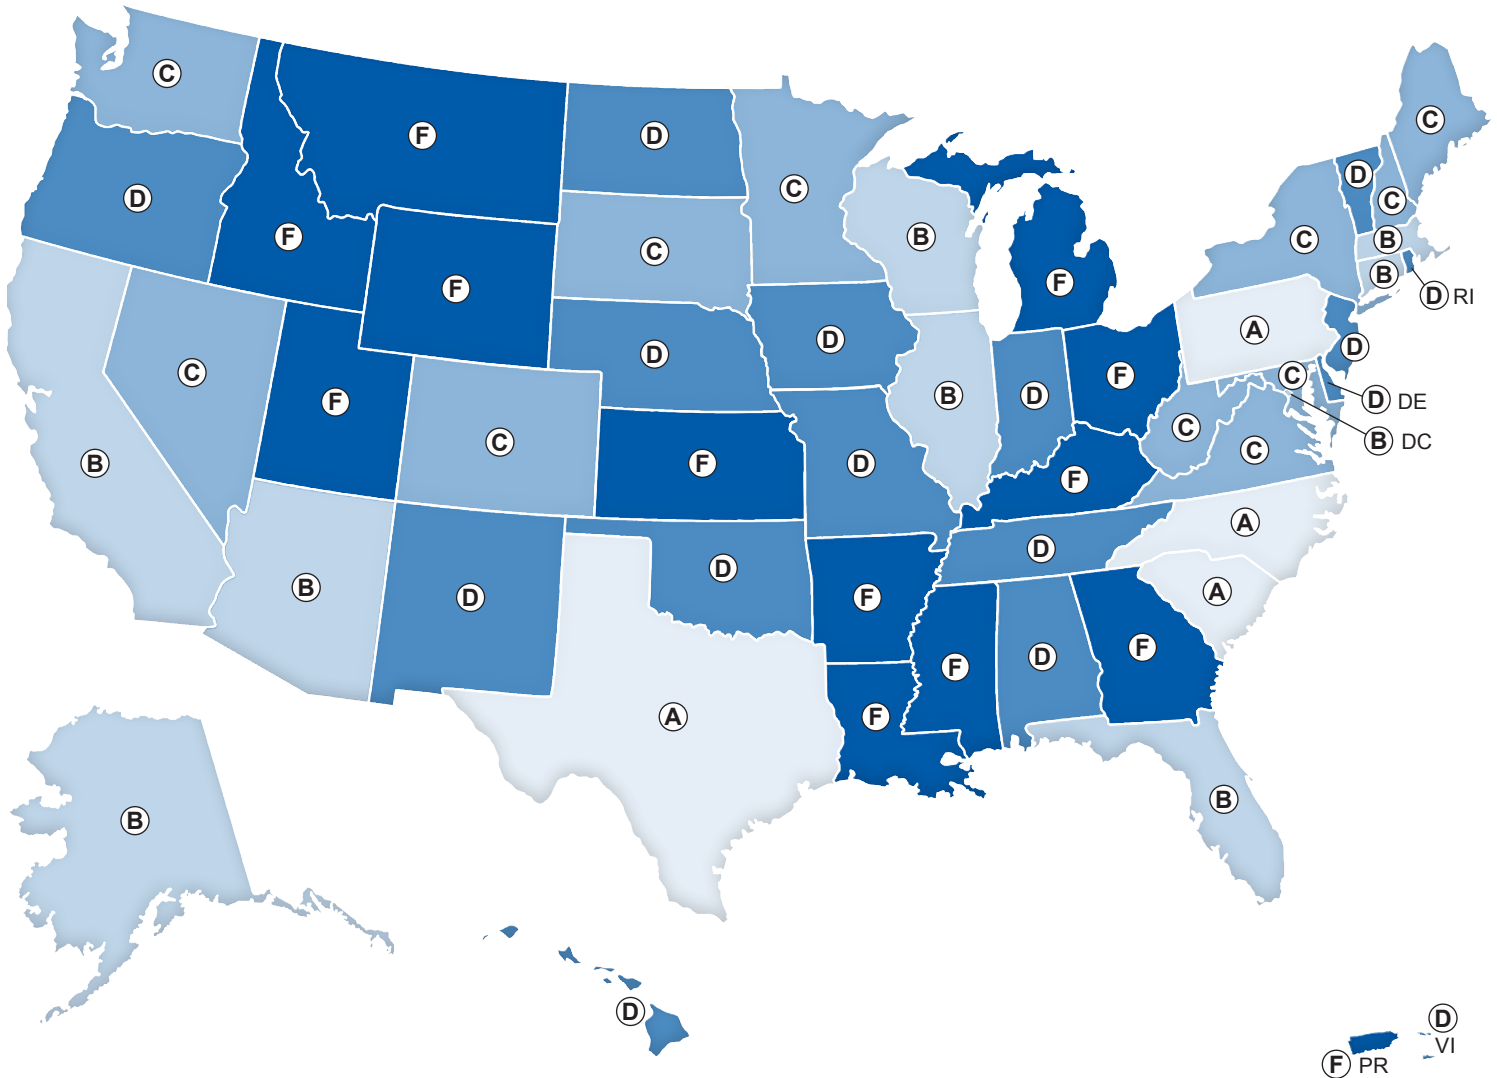

Protection of wages is one of the most important roles of exemption laws. When creditors seize a consumer's wages, the employer is required to take the money from the consumer's paycheck and send it to the creditor. The consumer never sees that money and cannot use it to pay higher-priority obligations, such as rent, food, and childcare. Instead, the money goes to pay old credit card debts, written-off medical bills, or the amount still owed after a car was repossessed and sold. Year after year, the wages of about four million workers are seized for consumer debts.<sup>20</sup>

Wage seizure can doom a family's efforts to stay afloat. In most states, an employer is even permitted to fire a worker whose wages are seized for more than one debt.<sup>21</sup>

Since 1970, federal law has protected 75% of a wage earner's paycheck or 30 times the federal minimum wage, whichever is greater. This means that wage seizure will not reduce a debtor's paycheck below \$217.50 (thirty times the current federal minimum wage of \$7.25 an hour). But a weekly paycheck of \$217.50 places even a single individual who has no dependents below the federal poverty level.<sup>22</sup> For a family of four, \$217.50 per week is *less than half* of the federal poverty guideline (\$533.65).<sup>23</sup> Even if it were doubled, the federal minimum wage would still be far below a living wage for most families.<sup>24</sup>

Federal law gives states the option of protecting a larger portion of a debtor's paycheck if they choose. Yet only 13 jurisdictions protect even a poverty-level wage for a family of four, and 13 jurisdictions do not go beyond the federal minimum at all.

## MAP 2 STATE PROTECTION OF WAGES

- A** 4 states ban wage garnishment for most debts
- B** 9 states protect enough wages so that paycheck does not drop below the poverty level (\$535.65 per week in 2022)
- C** 11 states protect at least \$350 per week
- D** 16 states preserve more of a worker's wages than the minimum required by federal law (\$217.50 per week)
- F** 13 states protect only the federal minimum (\$217.50 per week)

Table 1 lists the states that fall into each category. See our [Rating Criteria](#) for details and our [State Summaries](#) for state-by-state information.

## Florida Father Hit with Wage Garnishment in Midst of Pandemic

On paper, Randall Ward would seem to be well-insulated from garnishment. He lives in the small town of Marianna, Florida, and state law protects the wages of anyone deemed the “head of household,” which is defined as someone who earns more than half the household’s income and has dependents. Since Ward helps care for his 20-year-old son with Down syndrome and a granddaughter, his pay from his job as a manager at a Waffle House is eligible for protection from garnishment.

But when Encore, after having won a judgment against Ward the previous year, sought to garnish his wages this past February, Ward didn’t understand that he qualified for the “head of household” exemption. So, starting in March, Encore began taking a quarter of Ward’s take-home

pay. The size of the debt, a Citibank card that had ballooned to \$5,220 with interest and court costs, meant that Ward, even with what he’s proud to call a “good job,” was in for many lean months.

The only way to make ends meet, he said, was to cancel health insurance for himself, his son, and his wife, “because I could not pay the bills if I didn’t do it.”

Then the virus forced his restaurant to close for several weeks and his pay stopped altogether. The family was without income as he waited for his unemployment claim to go through. When, finally, he could go back to work, the garnishments returned.

*Source:* Excerpted from Paul Kiel and Jeff Ernsthausen, *ProPublica*, “[Debt Collectors Have Made a Fortune This Year. Now They’re Coming for More](#)” (Oct. 5, 2020).

**The best states:** Four states ban wage seizure entirely for typical consumer debts:

- North Carolina
- Pennsylvania (but with a major weakness that allows wage seizures for debts arising out of residential leases<sup>25</sup>)
- South Carolina
- Texas

These four states earn an A rating for protection of wages. Nine additional jurisdictions—**Alaska, Arizona, California, Connecticut, the District of Columbia, Florida, Illinois, Massachusetts, and Wisconsin**—at least prevent a debt collector from reducing a family to below the poverty level, and receive a B rating, though their protections may be insufficient to protect a living wage.

**The worst states:** Thirteen jurisdictions—**Arkansas, Georgia, Idaho, Kansas, Kentucky, Louisiana, Michigan, Mississippi, Montana, Ohio, Puerto Rico, Utah, and Wyoming**—are rated F. They protect no more of a worker’s wages

TABLE 1 **State Protection of Wages**

**NCLC's *Model Family Financial Protection Act* Recommendation:**  
**\$1,000 of disposable income (to be adjusted for inflation); if debtor earns more than this amount, 10% of excess (15% if weekly disposable income exceeds \$1,200)**

STATE	AMOUNT PROTECTED
<b>“A” States Ban Wage Garnishment for Most Debts</b>	
North Carolina	All wages exempt if supporting a family
Pennsylvania	All wages exempt for most debts (but with a major loophole for landlord-tenant debt)
South Carolina	All wages exempt
Texas	All wages exempt
<b>“B” States Protect Enough Wages So That Paycheck Does Not Drop Below the Poverty Level (\$533.65 per week for family of four)</b>	
Alaska	\$743 per week if debtor is sole support of debtor's household
Arizona	Wage seizure is limited to the lesser of 10% or the amount by which the wages exceed 60 times the applicable (federal, state, or local, whichever is highest). May be reduced to 5% in case of “extreme economic hardship” to debtor or family
California	As of September 2023, state protects 80% of disposable earnings or 48 times the state minimum wage (\$15.50/hour). If debtor earns more than 48 times the state minimum wage, 40% of the amount in excess of 48 times the state minimum wage can be seized.
Connecticut	75% of wages or 40 times federal or state (\$14/hour) minimum wage
District of Columbia	40 times D.C. minimum wage (\$16.10/hour); garnishment limited to 25% of amount in excess of this amount; amount protected can be increased if undue hardship is shown
Florida	\$750 if wage earner is head of family
Illinois	Wage seizure is limited to 15% of gross wages or the amount in excess of 45 times federal or state (\$12/hour) minimum wage
Massachusetts	85% of gross wages or 50 times the greater of the federal or state (\$14.25/hour) minimum wage
Wisconsin	Federal poverty amount, based on family size, is exempt; also allows hardship exemption
<b>“C” States Protect at Least \$350 per Week</b>	
Colorado	80% of disposable income or 40 times state minimum wage (\$12.56/hour)
Maine	75% of wages or 40 times federal or state (\$12.75/hour) minimum wage
Maryland	75% of wages or 30 times state minimum wage (\$12.50/hour)
Minnesota	75% of wages or 40 times federal or state (\$10.33/hour) minimum wage. Also exempts wages of anyone who is, or was within the last 6 months, eligible for public assistance
Nevada	82% of wages or 50 times federal minimum wage
New Hampshire	50 times federal minimum wage
New York	Seizure is limited to 10% of gross wages, or amount in excess of 30 times federal or state minimum wage. State minimum wage varies from \$13.20 to \$15/hour. Also prohibits garnishment if debtor receives public assistance or would be qualified to receive it if wages were reduced by the seizure

STATE	AMOUNT PROTECTED
<b>“C” States Protect at Least \$350 per Week (continued)</b>	
<b>South Dakota</b>	80% of wages or 40 times federal or state (\$9.95/hour) minimum wage, plus \$25 per dependent
<b>Virginia</b>	75% of wages or 40 times federal or state (\$11/hour) minimum wage. If household income does not exceed \$1,750/month, additional exemptions of \$34/week for one child, \$52/week for two, and \$66/week for three or more
<b>Washington</b>	For consumer debt, 80% of disposable earnings or 35 times state minimum wage (\$14.49/hour)
<b>West Virginia</b>	80% of wages or 50 times federal minimum wage; more can be exempted upon showing of hardship if debt arises from consumer credit sale, consumer lease, or consumer loan, or as court deems just
<b>“D” States Preserve More of a Worker’s Wages Than the Minimum Required by Federal Law</b>	
<b>Alabama</b>	By statute, protects only the federal minimum, 75% of wages or 30 times federal minimum wage. However, the state constitution provides a \$1,000 wildcard for personal property, and an intermediate state appellate court decision holds that this can be applied to exempt up to \$1,000 in wages in the hands of the debtor’s employer. While the state supreme court has not yet spoken, the existence of this decision justifies raising the state’s rating to a D.
<b>Delaware</b>	85% of wages
<b>Hawaii</b>	Protects all but 5% of the first \$100 in wages, all but 10% of next \$100, and all but 20% of remainder
<b>Indiana</b>	Only protects the federal minimum, 75% of wages or 30 times federal minimum wage, but allows reduction in case of hardship
<b>Iowa</b>	For debts arising from consumer contract, protects 75% of wages or 40 times minimum wage; also places dollar cap on amount that can be garnished in a year and allows reduction in case of hardship
<b>Missouri</b>	90% of wages for head of family
<b>Nebraska</b>	85% of wages for head of household
<b>New Jersey</b>	90% of wages if under 250% of poverty
<b>New Mexico</b>	75% of wages or 40 times federal minimum wage
<b>North Dakota</b>	75% of wages or 40 times federal minimum wage, plus \$20 per dependent
<b>Oklahoma</b>	Only protects the federal minimum, 75% of wages or 30 times federal minimum wage, but allows hardship exemption.
<b>Oregon</b>	Protects the greater of 75% of wages or \$254/week
<b>Rhode Island</b>	Only protects the federal minimum, 75% of wages or 30 times federal minimum wage, but also prohibits garnishment for one year after receipt of public assistance
<b>Tennessee</b>	Federal minimum (75% of wages or 30 times federal minimum wage), plus \$2.50 per week for each dependent child under age 16
<b>Vermont</b>	For debt arising from consumer credit transaction, 85% of wages or 40 times federal minimum wage; more if debtor shows need
<b>Virgin Islands</b>	90% of wages

STATE	AMOUNT PROTECTED
<b>“F” States Protect Only the Federal Minimum</b>	
<b>Arkansas</b>	Only protects the federal minimum, 75% of wages or 30 times federal minimum wage
<b>Georgia</b>	Only protects the federal minimum, 75% of wages or 30 times federal minimum wage, except for private student loans
<b>Idaho</b>	Only protects the federal minimum, 75% of wages or 30 times federal minimum wage
<b>Kansas</b>	Only protects the federal minimum, 75% of wages or 30 times federal minimum wage
<b>Kentucky</b>	Only protects the federal minimum, 75% of wages or 30 times federal minimum wage
<b>Louisiana</b>	Only protects the federal minimum, 75% of wages or 30 times federal minimum wage
<b>Michigan</b>	Only protects the federal minimum, 75% of wages or 30 times federal minimum wage
<b>Mississippi</b>	Only protects the federal minimum, 75% of wages or 30 times federal minimum wage
<b>Montana</b>	Only protects the federal minimum, 75% of wages or 30 times federal minimum wage
<b>Ohio</b>	Only protects the federal minimum, 75% of wages or 30 times federal minimum wage
<b>Puerto Rico</b>	Only protects the federal minimum, 75% of wages or 30 times federal minimum wage
<b>Utah</b>	Only protects the federal minimum, 75% of wages or 30 times federal minimum wage
<b>Wyoming</b>	Only protects the federal minimum, 75% of wages or 30 times federal minimum wage

than the federal minimum: \$217.50 a week, less than half the poverty level for a family of four.

NCLC’s *Model Family Financial Protection Act* suggests protecting at least \$1,000 per week (to be adjusted for inflation).<sup>26</sup> If the debtor nets more than that amount but no more than \$1,200 a week (the approximate equivalent of \$70,000 a year in gross wages), 10% of the excess amount can be seized. If the debtor earns more than that, 15% can be seized. The model law thus allows creditors to make use of wage garnishment, but it protects a debtor from a disastrous reduction in the income necessary to meet daily expenses. In a few states, \$1,000 per week might be sufficient to protect close to a living wage, but states with high costs of living should consider protecting more.

A growing issue is whether wages retain their exemption after deposit in a bank account. There is no federal protection for wages once deposited. A state’s failure to protect wages after deposit in a bank account enables creditors to evade the protection of the consumer’s wages by going directly to the bank account and cleaning it out. This danger is increasing as more and more employers use direct deposit to pay their workers. Whether states protect wages after deposit—or, better yet, provide a general protection for a basic amount in a bank account—is discussed [here](#) in connection with our evaluation of state protections for bank accounts.

## PROTECTING THE FAMILY HOME FROM CREDITORS

Protection of the family home from creditors is one of the fundamental purposes of exemption laws. Loss of the home can mean a loss of support networks. It can also mean loss of a job if the family cannot find replacement housing within commuting distance. For a farm family, loss of the home means loss of their source of support. Losing the family home is particularly hard on children, as it often means that they must change schools and leave friends and relatives behind. The mere existence of a judgment lien — the first step toward seizing a home—can be an obstacle to selling or refinancing a home or financing repairs to it.<sup>27</sup>

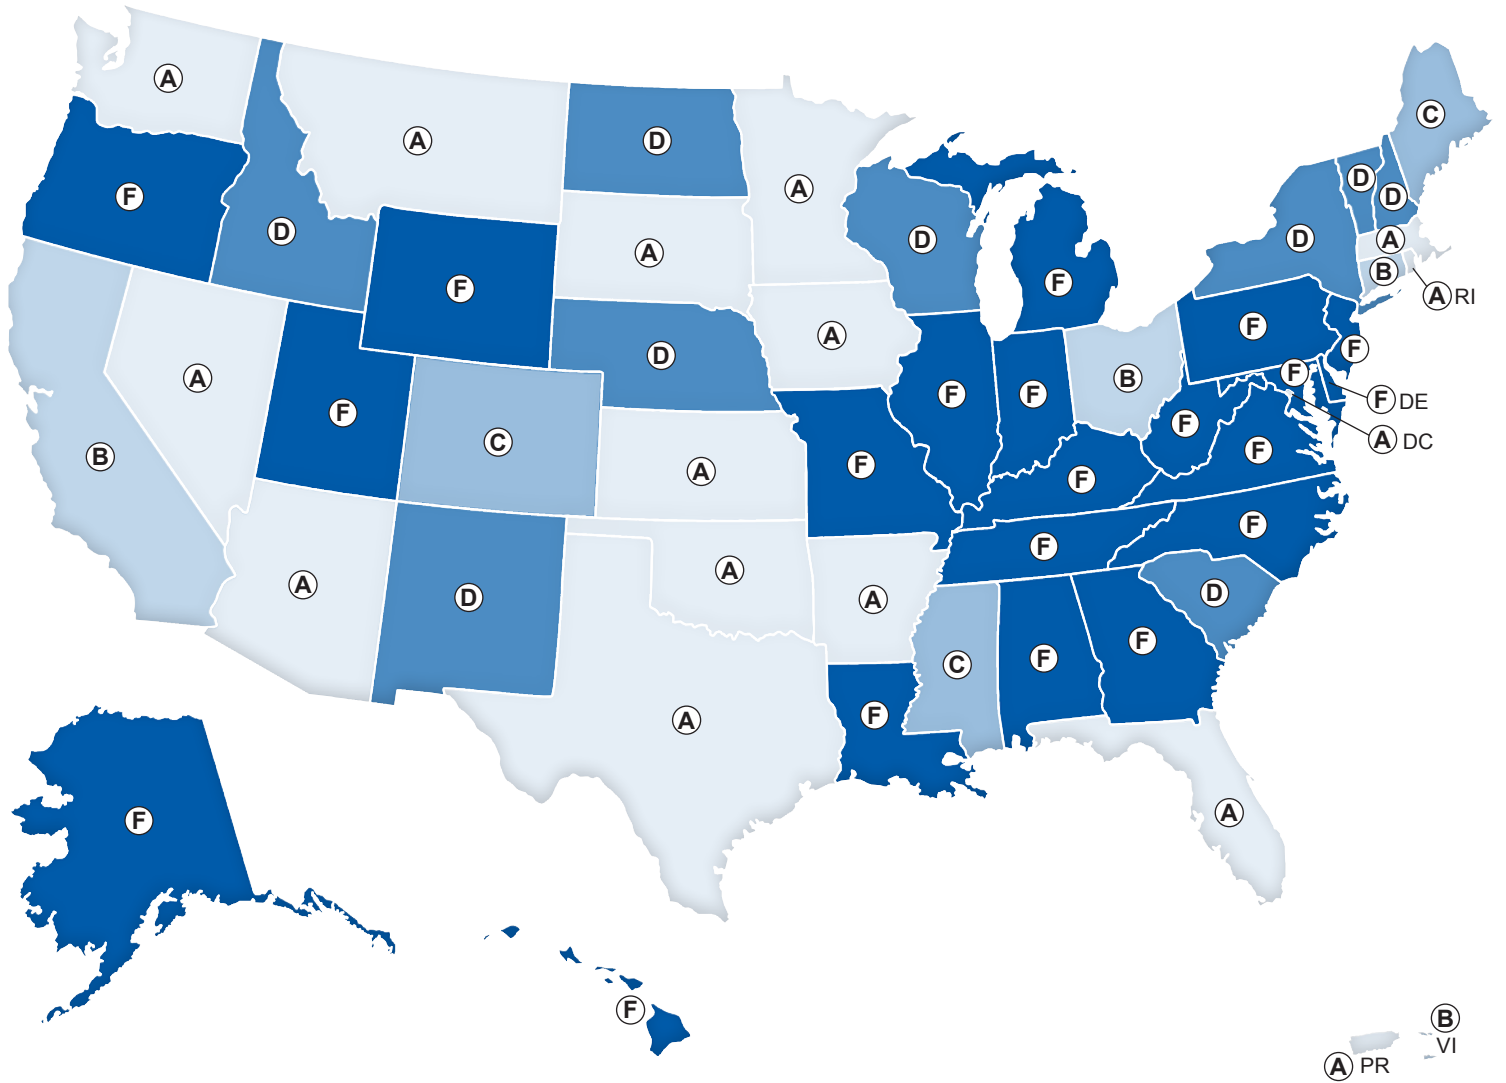

**Best states:** Sixteen jurisdictions receive an A rating because they protect at least the median value of a home. Nine of these jurisdictions protect the family home regardless of value: **Arkansas, District of Columbia, Florida, Iowa, Kansas, Oklahoma, Puerto Rico, South Dakota, and Texas.** All of these jurisdictions except the **District of Columbia** and **Puerto Rico** place limits on the number of acres that the exempt homestead can include.

The remaining seven jurisdictions that achieve an A rating—**Arizona, Massachusetts, Minnesota, Montana, Nevada, Rhode Island, and Washington**<sup>28</sup>—have a dollar cap on the amount of the homestead exemption, but the cap is high enough so that a median-priced home in that state is exempt. Despite California's relatively strong homestead exemption, which is designed to increase each year for inflation, the state has fallen from an A to a B this year because the median home price increase in the state has increased faster than the protection. This a good reason for states to adopt NCLC's recommendation tying the exemption to median home price in a state or by simply protecting a home regardless of value.

**Worst states:** Twenty-one jurisdictions—**Alabama, Alaska, Delaware, Georgia, Hawaii, Illinois, Indiana, Kentucky, Louisiana, Maryland, Michigan, Missouri, New Jersey, North Carolina, Oregon, Pennsylvania, Tennessee, Utah, Virginia, West Virginia, and Wyoming**—rate an F. These states protect less than 25% of the median home value in their state. Their exemption amounts are so small that they are likely to save only a heavily mortgaged home.

Seven of this final group of states—**Delaware, Kentucky, Maryland, Michigan, New Jersey, Pennsylvania, and West Virginia**—are especially deserving of an F grade because they provide no realistic protection at all for the family home. **Pennsylvania**, for example, provides a wildcard exemption of just \$300. The debtor can apply this exemption to a car, household goods, a home, or other property. **Delaware** allows the head of a household to apply a \$500 wildcard exemption to the family home. Only if the debtor files bankruptcy is a realistic

## MAP 3 PROTECTION OF THE FAMILY HOME

- 
- A horizontal bar chart with five bars of increasing blue color intensity from top to bottom. Each bar is labeled with a letter (A-F) and a corresponding description of state protection for family homes. The bars represent the following data:
- | Category | Description   | Count |
|----------|---|-------|
| A        | 16 states protect the family home regardless of value, or protect a median-priced home in the state | 16    |
| B        | 4 states protect a home worth 75% to 99% of state median price                                      | 4     |
| C        | 3 states protect a home worth 50% to 74% of state median price                                      | 3     |
| D        | 9 states protect a home worth 25% to 49% of state median price                                      | 9     |
| F        | 21 states provide little or no protection for the family home                                       | 21    |

**Table 2** lists the states that fall into each category. See our [Rating Criteria](#) for details and our [State Summaries](#) for state-by-state information.

homestead exemption (\$125,000) available, but even that is less than half the median home value in the state. **New Jersey** provides no exemption at all that can be applied to a home. **Maryland** provides a \$6,000 homestead exemption; **Kentucky** and **West Virginia** allow \$5,000; and **Michigan's** exemption is just \$3,500.

Elders who have lived in a home a long time and have paid down their mortgages are particularly likely to face loss of their homes in states that have low homestead exemptions. The reason is that a creditor's ability to force the sale of a home typically depends on whether the debtor's equity in it is less than the exemption amount. Accordingly, a home with a large mortgage debt may be exempt even if the home's market value would exceed the exemption amount. The reason is that, if the creditor forced the sale of a mortgaged home, the proceeds would go first to pay off the mortgage debt and only the amount left after that would go toward the creditor's debt. By contrast, an older homeowner may have a low mortgage balance or no balance, so will be more vulnerable to a forced sale of the home.

Some states—even some states that provide little or no other protection for the home—recognize a doctrine called “tenancy by the entireties” under which a home owned by a married couple cannot be subjected to a forced sale by a creditor unless both spouses owe the debt. This legal doctrine protects some homes, but it has limited application since often both spouses owe the debt. In addition, it provides no protection at all to widows, widowers, and divorced or single parents who incur debts, even though they may be most in need of protection.

As noted above, some states protect the debtor's home regardless of its value, usually with a limit on acreage, such as a half-acre in an urban area or 160 acres in a rural area. This approach most clearly recognizes the importance of the home. However, this approach has engendered controversy because of occasional attempts by wealthy individuals to shield all their assets from creditors by moving to one of these states and investing all their assets in an exempt home. While these cases are exceedingly rare, they may have made states reluctant to adopt uncapped homestead exemptions. NCLC's [Model Family Financial Protection Act](#) provides a homestead exemption tied to the median home price in the state.

Exempting the family home does not leave the creditor empty-handed. Typically, homestead exemption laws are structured so that a judgment creditor—a creditor that has obtained a court ruling that the debtor owes a specific sum—can place a lien on the family home. Some states preclude execution on this lien (that is, they

TABLE 2 **Protection of the Family Home**

**NCLC's *Model Family Financial Protection Act* Recommendation:  
Median House Price**

STATE	AMOUNT OF PROTECTION
<b>“A” States that Protect the Family Home Regardless of Value</b>	
Arkansas	Limit on number of acres, but no dollar cap
District of Columbia	No dollar cap if head of family
Florida	Limit on number of acres, but no dollar cap
Iowa	Limit on number of acres, but no dollar cap
Kansas	Limit on number of acres, but no dollar cap
Oklahoma	Limit on number of acres, but no dollar cap
Puerto Rico	No dollar cap
South Dakota	Limit on number of acres, but no dollar cap
Texas	Limit on number of acres, but no dollar cap
<b>“A” States that Protect a Median-Priced Home in the State</b>	
Arizona	\$400,000
Massachusetts	\$500,000 (if recorded homestead declaration)
Minnesota	\$480,000
Montana	\$364,000
Nevada	\$605,000
Rhode Island	\$500,000
Washington	\$125,000 or median sale price of home in the county
<b>“B” States Protect a Home Worth 75% to 99% of State Median Price</b>	
California	\$313,200 or median price of home in the county, with cap of \$626,400
Connecticut	\$250,000
Ohio	\$161,375
Virgin Islands	\$300,000
<b>“C” States Protect a Home Worth 50% to 74% of State Median Price</b>	
Colorado	\$250,000
Maine	\$160,000
Mississippi	\$75,000
<b>“D” States Protect a Home Worth 25% to 49% of State Median Price</b>	
Idaho	\$175,000
Nebraska	\$60,000
New Hampshire	\$120,000
New Mexico	\$60,000
New York	\$179,975 (in the 10 most populous counties)

STATE	AMOUNT OF PROTECTION
<b>“D” States Protect a Home Worth 25% to 49% of State Median Price (continued)</b>	
North Dakota	\$100,000
South Carolina	\$67,100
Vermont	\$125,000
Wisconsin	\$75,000
<b>“F” States Provide Little or No Protection for the Family Home</b>	
Alabama	\$16,450
Alaska	\$72,900
Delaware	\$500
Georgia	\$21,500
Hawaii	\$30,000
Illinois	\$15,000
Indiana	\$22,750
Kentucky	\$5,000
Louisiana	\$35,000
Maryland	\$6,000 wildcard can be applied to real property
Michigan	\$3,500
Missouri	\$15,000
New Jersey	None
North Carolina	\$35,000
Oregon	\$40,000
Pennsylvania	\$300 wildcard can be applied to real property
Tennessee	\$35,000
Utah	\$45,100
Virginia	\$25,000, plus wildcard of \$5,000 and \$500 per dependent
West Virginia	\$5,000 if parent or married person
Wyoming	\$20,000

prevent the judgment creditor from forcing a sale of the home). However, when the family sells the home, the creditor can take any proceeds that exceed the exempt amount. The creditor may even be able take the exempt amount if the debtor does not use the sale proceeds promptly to buy a new home. Alternatively, if the home is not sold while the judgment debtor is alive, the creditor is paid when the homeowners die.

## THE FAMILY CAR: CAN A BREADWINNER CONTINUE TO GET TO WORK?

For many workers, a car is essential to employment. Many wage earners have to work substantial distances from their homes. Public transportation may be unavailable, so infrequent that it is difficult to use, or closed on evenings and weekends when they need to work. Even those whose jobs are near public transportation may be unable to work unless they have a car to take children to and from daycare.

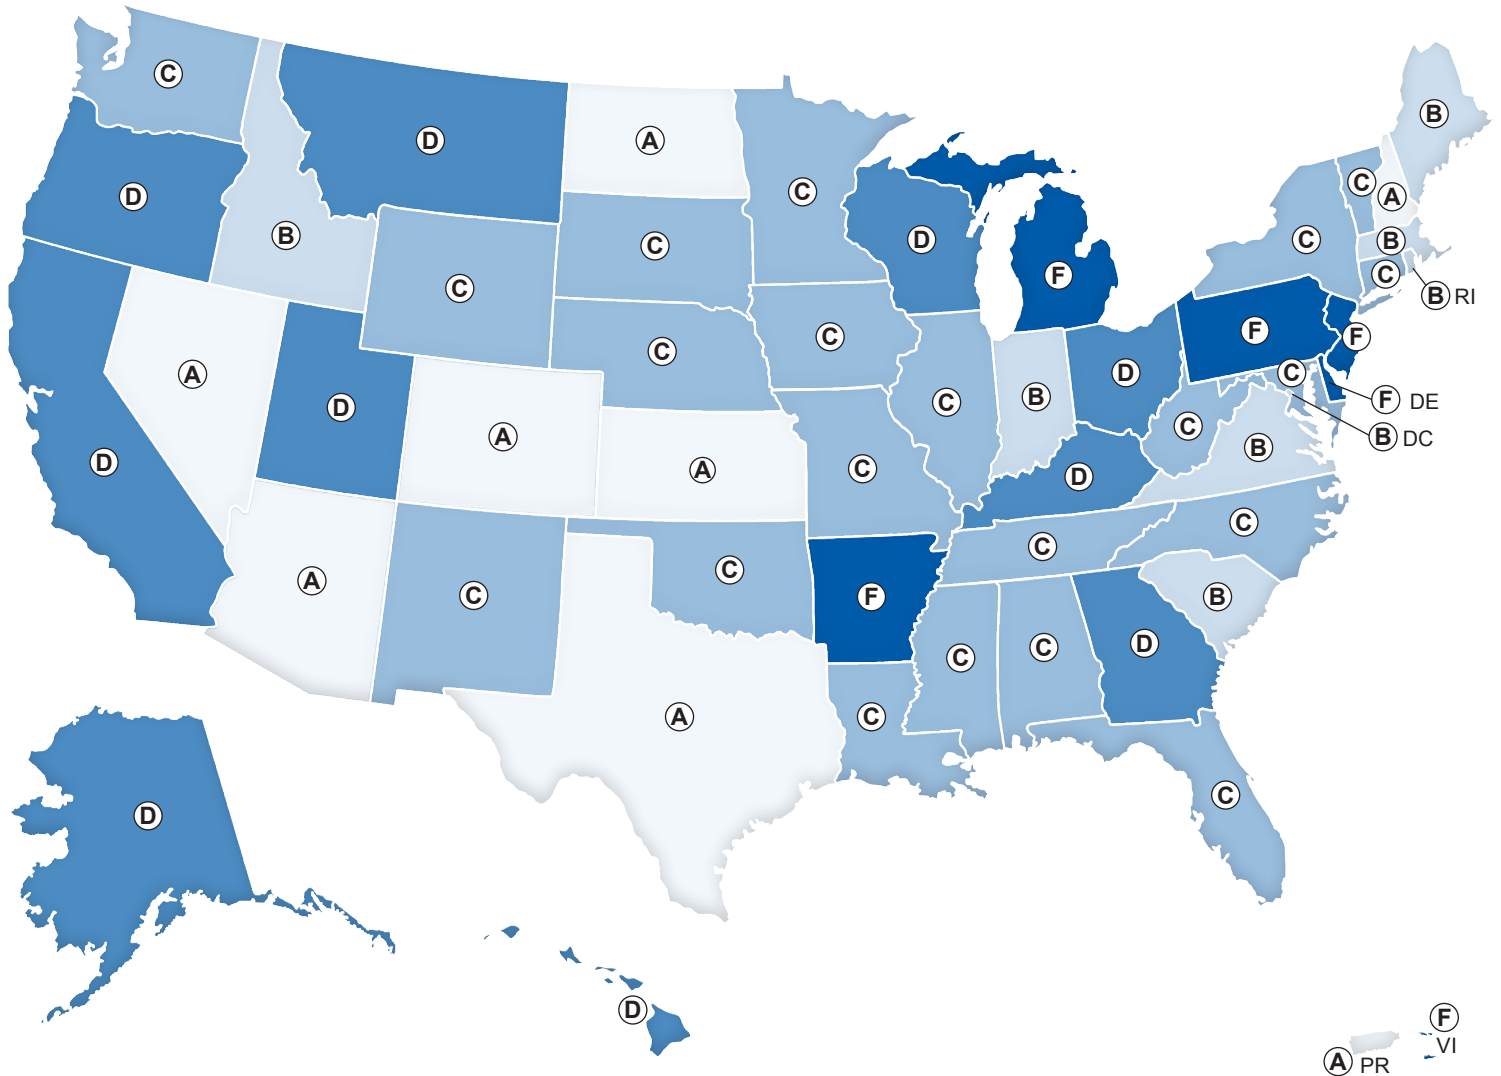

Loss of a car can place a family on a downward trajectory that leads to job loss and a cascade of unpaid utility bills, deferred medical care, unpaid rent, and eviction or foreclosure. The effect of allowing creditors to seize the family car has wide ramifications, hurting not just the consumer and the consumer's family but also the consumer's landlord, the local utility provider, and other creditors that the consumer would like to pay.

NCLC's [Model Family Financial Protection Act](#) gives a debtor a \$15,000 exemption for a car. This is considerably less than the average \$33,341 retail price for a used vehicle<sup>29</sup>--up \$7,931 from last year's average of 25,410.<sup>30</sup> However, since that average is based on all vehicles, reducing it to \$15,000 is a reasonable way to approximate the average price for a low- or mid-priced vehicle that a struggling debtor is more likely to be driving. We have therefore, at least for now, continued to use \$15,000 as the standard for an A rating.

In states that provide wildcard exemptions, there are complexities in evaluating whether a state meets this standard. A wildcard is an exemption that is not earmarked for a particular category of property. Instead, the debtor has some choices about which property to apply it to. For example, Illinois provides a \$2,400 exemption for a car and a \$4,000 wildcard exemption, but no exemption for a bank account or household goods. A debtor could use the \$4,000 wildcard to increase the protection for the car to \$6,400, or to protect some household goods or a basic amount in a bank account.

To treat these wildcards in a uniform way so that state-to-state comparisons are possible, in this report we assume that any wildcard is used first to increase the exemption for a car to as close to \$15,000 as possible. If there is any remaining amount, it is used to protect a small bank account, and then any remainder after that is used to protect household goods. (However, if the wildcard is at least \$3,000 and there is no other protection for a bank account or household goods, we have set aside \$1,000 of it for those purposes). If the state makes the wildcard available only to a debtor who does not claim a homestead exemption, this report treats it as available. Details and specifics about these protocols are found in our [Rating Criteria](#).

## MAP 4 PROTECTION OF THE FAMILY CAR

- A 8 states protect a car worth \$15,000 or more
- B 8 states protect a car worth between \$10,000 and \$14,999
- C 21 states protect a car worth between \$5,000 and \$9,999
- D 10 states protect a car worth between \$2,000 and \$4,999
- F 6 states provide no realistic protection for the debtor's car

**Table 3** lists the states that fall into each category. The ratings for AL, AR, CT, DE, DC, FL, GA, ID, IL, IN, IA, ME, MD, MA, MS, MO, NE, NH, NJ, NM, NY, NC, ND, PA, SC, SD, TN, TX, VT, VA, WA, and WV are based in whole or in part on use of a wildcard (an exemption that can be used to protect items of the debtor's choice). See our [Rating Criteria](#) for details and our [State Summaries](#) for state-by-state information.

TABLE 3 **Protection of the Family Car**

**NCLC's *Model Family Financial Protection Act* Recommendation:**  
**\$15,000 car (\$25,000 if adapted for disability), plus \$10,000 wildcard**

STATE	AMOUNT OF PROTECTION
<b>"A" States Protect a Car Worth \$15,000 or More</b>	
Arizona	\$15,000
Colorado	\$15,000
Kansas	\$20,000
Nevada	\$15,000
New Hampshire	\$15,000 (amount includes a wildcard*)
North Dakota	\$15,000 (amount includes a wildcard*)
Puerto Rico	No limit on value if used in occupation
Texas	\$15,000 (through use of a wildcard*)
<b>"B" States Protect a Car Worth Between \$10,000 and \$14,999</b>	
District of Columbia	\$10,500 (amount includes a wildcard*)
Idaho	\$11,500 (amount includes a wildcard*)
Indiana	\$11,100 (through use of a wildcard)
Maine	\$10,500 (amount includes a wildcard*)
Massachusetts	\$13,500 (amount includes a wildcard*)
Rhode Island	\$12,000
South Carolina	\$13,400 (amount includes a wildcard*)
Virginia	\$11,000 (amount includes a wildcard*)
<b>"C" States Protect a Car Worth Between \$5,000 and \$9,999</b>	
Alabama	\$8,225 (through use of a wildcard*)
Connecticut	\$8,000 (amount includes a wildcard*)
Florida	\$5,000 (amount includes a wildcard*)
Illinois	\$5,400 (amount includes a wildcard*)
Iowa	\$8,000 (amount includes a wildcard*)
Louisiana	\$7,500
Maryland	\$5,000 (through use of a wildcard*)
Minnesota	\$5,200
Mississippi	\$9,000 (through use of a wildcard*)
Missouri	\$5,550 (amount includes a wildcard*)
Nebraska	\$9,000 (amount includes a wildcard*)
New Mexico	\$8,500 (amount includes a wildcard*)
New York	\$6,000 (amount includes a wildcard*)
North Carolina	\$7,500 (amount includes a wildcard*)
Oklahoma	\$7,500
South Dakota	\$6,000 (through use of a wildcard*)

STATE	AMOUNT OF PROTECTION
<b>“C” States Protect a Car Worth Between \$5,000 and \$9,999 (continued)</b>	
Tennessee	\$9,000 (through use of a wildcard*)
Vermont	\$9,900 (amount includes a wildcard*)
Washington	\$5,250 (amount includes a wildcard*)
West Virginia	\$6,000 (amount includes a wildcard*)
Wyoming	\$5,000
<b>“D” States Protect a Car Worth Between \$2000 and \$4999</b>	
Alaska	\$4,050
California	\$3,625 (through use of a wildcard*)
Georgia	\$4,000 (through use of a wildcard*)
Hawaii	\$2,575
Kentucky	\$2,500
Montana	\$4,000
Ohio	\$4,450
Oregon	\$3,000
Utah	\$3,000
Wisconsin	\$4,000
<b>“F” States Provide No Realistic Protection for the Debtor’s Car</b>	
Arkansas	\$500 (through use of a wildcard*)
Delaware	\$500 (through use of a wildcard*)
Michigan	\$1,000 if necessary for debtor to carry on trade or occupation
New Jersey	\$1,000 (through use of a wildcard*)
Pennsylvania	\$300 (through use of a wildcard*)
Virgin Islands	None

\*This table assumes that, if the state allows a “wildcard” exemption (one that is not limited to a particular category of property, but can be used to protect items of the debtor’s choice), the debtor will apply all or most of it first to protect a car up to \$15,000 in value.

**Best states:** Only eight jurisdictions—**Arizona** (\$15,000), **Colorado** (\$15,000), **Kansas** (\$20,000), **Nevada** (\$15,000), **New Hampshire** (\$10,000 plus all of one wildcard and part of a second), **North Dakota** (\$2,950 plus all of one wildcard and part of a second), **Puerto Rico** (if the car is needed for work), and **Texas** (through use of a wildcard)—preserve a \$15,000 vehicle from seizure by creditors. These jurisdictions receive an A rating. Several other states, such as **Louisiana**, **Massachusetts**, and **Minnesota**, protect a car worth \$15,000 or more, but only if the car is specially modified for use by a disabled person (or, in the case of **Massachusetts**, if the debtor is elderly).<sup>31</sup>

**Worst states:** Six jurisdictions—**Arkansas** (\$500), **Delaware** (\$500), **Michigan** (\$1,000), **New Jersey** (\$1,000), **Pennsylvania** (\$300), and the **Virgin Islands** (\$0)—provide no realistic protection for a family’s car and are rated F. In four of these states, an exemption of \$1,000 or less is all that is available to protect not just the debtor’s car but also any other personal property the debtor owns, including household goods (and in the case of **Pennsylvania** the debtor’s home as well).

## PROTECTING A BASIC AMOUNT IN A BANK ACCOUNT

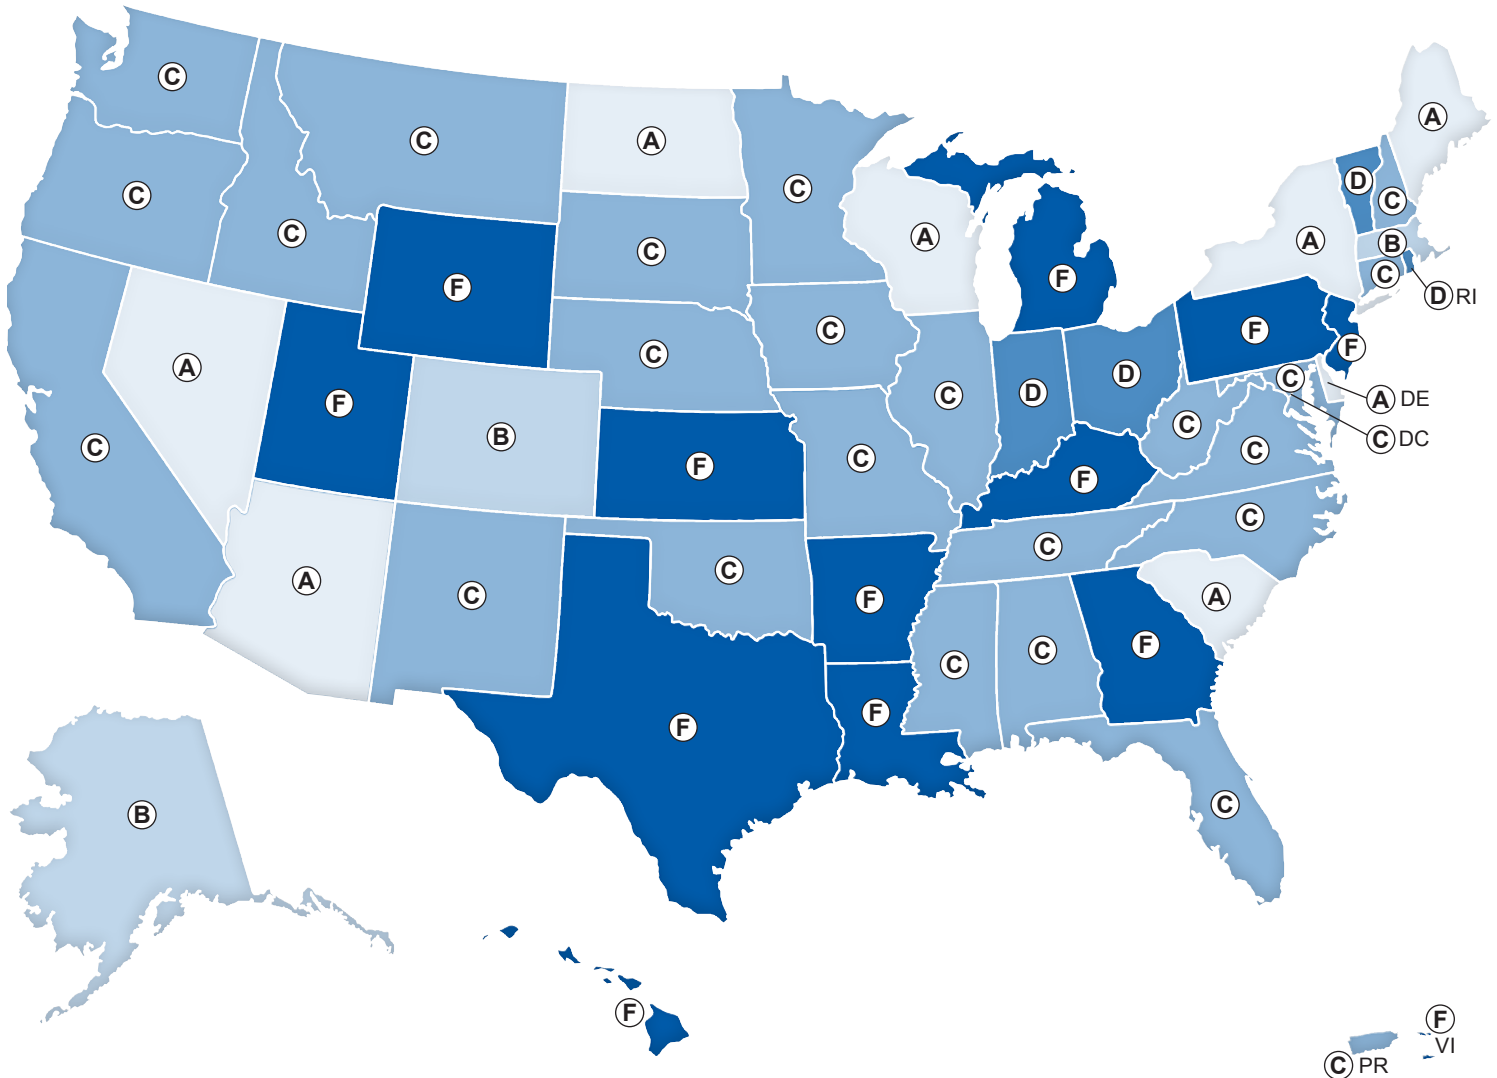

Even if a state’s exemption laws protect a debtor’s wages, home, and car, a debtor needs access to a basic amount of cash to commute to work, buy groceries, and make the upcoming rent or mortgage payment or the next payment on the family car. A debtor who is left without cash may also be unable to pay for transportation, daycare, utility service, and other necessities. An additional cushion is necessary to handle irregular expenses such as car repairs and medical expenses, potential income shocks such as unemployment or a cut in hours, and savings needed for retirement.

Every state except **Delaware** gives a creditor the right to seize funds in a bank account in the debtor’s name once the creditor has obtained a judgment from a court determining that the debtor owes a debt. Many states allow the creditor to clean out the account completely, protecting at most a few special types of accounts such as college savings accounts or a few types of funds, such as state benefits. Only a few states set a fixed amount that the creditor cannot touch.

Protecting bank accounts is particularly important in light of the growing practice by employers to pay wages electronically through direct deposit. If a creditor can clean out the debtor’s bank account, this can amount to seizure of 100% of the debtor’s wages, in effect nullifying the federal and state limits on wage seizure. Some state wage seizure laws are interpreted to protect wages even after they are deposited in a bank account, but typically these laws are not self-executing: the debtor must go to court and present evidence tracing the funds on deposit to specific wage deposits. Many debtors will not know about this protection, and even if they do, this process can take weeks and will be daunting for many debtors. In the meantime, the account is frozen so the debtor cannot pay the rent, transportation, car payment, or mortgage payment, and any outstanding checks will bounce. The resulting overdraft fees that will be imposed when the next paycheck is deposited are likely to undermine the debtor’s ability to pay the next month’s bills, creating a rapid downward spiral.

## MAP 5 PROTECTION OF FAMILY BANK ACCOUNTS

- A 8 states protect \$3,000 to \$10,000 or the entire account
- B 3 states protect between \$2,000 and \$2,999 in a bank account
- C 25 states protect between \$1,000 and \$1,999 in a bank account, or treat deposited wages as exempt.
- D 4 states protect between \$300 and \$999 in a bank account
- F 13 states protect less than \$300 in a bank account

The protections in CA, CT, DE, NV, MA, NY, and WA are particularly strong because they are explicitly made self-executing.

Table 4 lists the states that fall into each category. The ratings for AL, DC, FL, IL, MD, MS, NE, NV, NH, NM, NC, ND, OR, SD, TN, VA, and WA are based in whole or in part on use of a wildcard (an exemption that can be used to protect items of the debtor's choice). See our [Rating Criteria](#) for details and our [State Summaries](#) for state-by-state information.

The same result can occur for day laborers and workers in the gig economy. In many states, their earnings are not protected by the wage seizure laws. If those earnings are deposited into a bank account, the entire amount is vulnerable to seizure by a creditor.

### *The Importance of Self-Executing Protections*

Legal protection on paper is meaningless if it does not apply in practice. Self-executing protections, which do not rely on a debtor knowing the law or having access to an attorney, are the best way to ensure that the law is enforced.

In 2010, a group of federal agencies led by the U.S. Treasury Department addressed the problem of protecting federal benefits, such as Social Security, that are direct-deposited into the beneficiary's bank account. Even though federal law makes Social Security and other similar federal benefits immune from seizure for most purposes except child support, creditors were seizing those funds once they were deposited. To reverse the seizure of the benefits, the beneficiary had to navigate the court system and prove the source of the funds. In the meantime, the beneficiary had no access to these essential benefits, and any checks the beneficiary had written—for rent or anything else—were bouncing.

In 2010, the Treasury Department adopted a rule that requires a bank that receives a garnishment order to determine whether the bank account contains electronically deposited exempt federal benefits. If it does, the bank must protect the last two months of those deposits.<sup>32</sup>

The beauty of the Treasury rule's protection is that it is self-executing. The bank protects the funds. No action on the part of the beneficiary is necessary—the beneficiary does not have to know their rights, file papers in court, attend court hearings, or present evidence about the source of the funds. The account is not frozen while the beneficiary tries to navigate the judicial system.

At least six states—**California, Connecticut, Nevada, Massachusetts, New York, and Washington**—have taken the Treasury rule's approach and explicitly applied it to all bank accounts, creating a self-executing protection for a specified amount ranging from \$400 in **Nevada** to \$3,600 in **New York**, and **Delaware** bans bank account seizure altogether. A self-executing protection for a specified dollar amount, without regard to the source of the funds, ensures that the exemption will achieve its purpose of protecting the debtor, saves time and money for the legal system, and relieves banks of the need to do complicated accounting or assist the debtor in tracing the source of the funds. These states serve as models for the nation in how to make an exemption for a bank account effective in achieving its goal of protecting the funds that families need to survive.

bank account effective in achieving its goal of protecting the funds that families need to survive.

### *How the States Rate*

Our analysis of states' protection of bank accounts is from the point of view of a debtor who is supporting a family and renting a home or apartment. When a family's bank account is cleaned out, that often means that the rent money is gone, as well as the money the family set aside for other essential monthly bills and future needs.

Some states provide a targeted exemption for a bank account, while others provide a wildcard that can be used to protect a bank account. When a state takes the wildcard approach, we have assumed, for purposes of uniformity, that the debtor will apply the wildcard first to the extent necessary to protect a car, and then, if possible, will protect a basic amount in a bank account. However, some states provide wildcards that can only be used for tangible personal property, not for a bank account, and some states provide no means at all to exempt a basic amount in a bank account. [Table 4](#) describes how we applied wildcards to bank accounts, and our [State Summaries](#) provide state-by-state explanations of how we applied wildcards and other exemptions. See [Rating Criteria](#) for more detail about how we applied wildcards.

In rating the states, we gave a state an A if it protects \$3,000 or more in a bank account. However, \$3,000 is a very modest protection. As the estimated median monthly rent for a two-bedroom apartment in 2022 in the United States is about \$1,325,<sup>33</sup> preserving \$3,000 in a bank account could enable a family to pay rent, plus at least some other essential expenses, for one month. But the median rent in a metropolitan area can greatly exceed \$1,100 per month, and a two-bedroom unit will be too small for many families. \$3,000 is less than half of the average monthly expenses for a family of four.<sup>34</sup> It is well below the monthly income HUD uses to define a "low income family," and less than even the income for a "very low income family."<sup>35</sup>

In addition, exemption laws should protect more than one month's worth of regular income. Families need funds for irregular expenses like car or home repairs or medical expenses. They need a cushion for income shocks like a layoff, a cut in hours, or the need to take time off for medical reasons or child or elder care. And exemption laws should not promote poverty for seniors by allowing assets and savings needed for retirement to be completely wiped out. Bankrate.com recommends an emergency fund of 3 to 6 times a family's monthly costs.<sup>36</sup> NCLC's [Model Family Financial Protection Act](#) recommends an exemption for \$12,000 in a bank account.

TABLE 4 **Protection of Family Bank Accounts**

**NCLC's *Model Family Financial Protection Act* Recommendation:**  
**\$12,000 in a bank account**

STATE	AMOUNT OF PROTECTION
<b>"A" States Protect \$3,000 or More in a Bank Account</b>	
Arizona	\$5,000
Delaware	Prohibits garnishment of bank account.
Maine	\$3,000
Nevada	\$10,400 (amount includes a \$10,000 wildcard*)
New York	\$3,168 to \$3,600 (depends on applicable minimum wage)
North Dakota	\$3,000 (uses \$3,000 of a \$17,500 wildcard,* \$10,000 of which is available only if debtor does not claim a homestead exemption)
South Carolina	\$6,700 (available only if debtor does not claim a homestead exemption)
Wisconsin	\$5,000
<b>"B" States Protect Between \$2,000 and \$2,999 in a Bank Account</b>	
Alaska	\$2,970 is protected if a person who is supporting a family does not receive weekly, biweekly, or monthly earnings
Colorado	\$2,500
Massachusetts	\$2,500
<b>"C" States Protect Between \$1,000 and \$1,999 in a Bank Account, or Protect Deposited Wages</b>	
Alabama	\$1,000 (uses \$1,000 of two wildcards* totaling \$8,750)
California	Wages remain exempt after deposit; in addition, California will has a self-executing protection for \$1,947
Connecticut	The first \$1,000 in the account is automatically exempt
District of Columbia	\$1,000 (uses \$1,000 of \$8,925 in wildcards,* all but \$850 of which is available only if debtor does not claim a homestead exemption)
Florida	\$1,000 (uses \$1,000 of \$5,000 in wildcards,* \$4,000 of which is available only if debtor does not claim a homestead exemption), plus wages remain exempt after deposit
Idaho	Wages remain exempt after deposit; this protection is automatic if wages were electronically deposited
Illinois	\$1,000 (uses \$1,000 of a \$4,000 wildcard*)
Iowa	Wages remain exempt after deposit
Maryland	\$1,000 (uses \$1,000 of a \$6,000 wildcard*)
Minnesota	Wages remain exempt after deposit
Mississippi	\$1,000 (uses \$1,000 of a \$10,000 wildcard*)
Missouri	Wages remain exempt after deposit
Montana	Wages remain exempt after deposit
Nebraska	\$1,000 (uses \$1,000 of a \$5,000 wildcard*), plus wages remain exempt after deposit
New Hampshire	\$1,000 (uses a wildcard* that ranges from \$1,000 to \$8,000 depending on what other exemptions debtor takes)
New Mexico	\$1,000 (uses \$1,000 of a \$6,000 wildcard,* \$5,000 of which is available only if debtor does not claim a homestead exemption)

STATE	AMOUNT OF PROTECTION
<b>“C” States Protect Between \$1,000 and \$1,999 in a Bank Account, or Protect Deposited Wages (continued)</b>	
North Carolina	\$1,000 (uses \$1,000 of a \$5,000 wildcard* that is available only if debtor does not claim a homestead exemption), plus wages remain exempt after deposit
Oklahoma	Wages remain exempt after deposit
Oregon	Wages remain exempt after deposit; \$400 wildcard* may also be used
Puerto Rico	Wages remain exempt after deposit
South Dakota	\$1,000 (uses \$1,000 of a \$7,000 wildcard*)
Tennessee	\$1,000 (uses \$1,000 of a \$10,000 wildcard*)
Virginia	\$1,000 (uses \$1,000 of a \$6,000 wildcard*)
Washington	Automatic protection for first \$1,000 in the account (uses \$1,000 of a \$3,000 wildcard,* \$2,000 of which can be used to protect a bank account if the debt is a consumer debt)
West Virginia	\$1,100
<b>“D” States Protect Between \$300 and \$999 in a Bank Account</b>	
Indiana	\$450
Ohio	\$550
Rhode Island	\$500
Vermont	\$700
<b>“F” States Protect Less than \$300 in a Bank Account</b>	
Arkansas	No protection
Georgia	No protection
Hawaii	No protection
Kansas	No protection
Kentucky	No protection
Louisiana	No protection
Michigan	No protection
New Jersey	No protection
Pennsylvania	No protection
Texas	No protection
Utah	No protection
Virgin Islands	No protection
Wyoming	No protection

\*This table assumes that, if the state allows a “wildcard” exemption (one that is not limited to a particular category of property, but can be used to protect items of the debtor’s choice), the debtor will apply all or most of it first to protect a car up to \$15,000 in value, and then the remainder to protect up to \$3,000 in a bank account if the state does not provide an earmarked exemption for a bank account. In some states, the wildcard exemption is also the only exemption available to protect a home. See our [Rating Criteria](#) for details and our [State Summaries](#) for state-by-state information.

We give a state a B if it protects between \$2,000 and \$2,999, and a C if it either protects \$1,000 to \$1,999 or provides that deposited wages are protected. States that protect between \$300 and \$999 rate a D, and states that protect less than \$300 rate an F.

Since our ratings are based primarily on the amount protected, they give only part of the picture. For example, while our rating system gives **California** just a C because the amount protected is less than \$2,000, the self-executing nature of its protection means that, in practice, it may turn out to be just as beneficial—if not more so—to families than the exemptions in states that protect a higher dollar amount but are not automatic.

**Best states:** **Delaware** is the top state, banning all bank account seizures. **Arizona, Maine, Nevada, New York,**<sup>37</sup> **North Dakota, South Carolina,** and **Wisconsin** protect \$3,000 to \$10,000 in a bank account through an earmarked exemption or a wildcard. We give these seven states an A rating.

**Worst states:** Thirteen jurisdictions—**Arkansas, Georgia, Hawaii, Kansas, Kentucky, Louisiana, Michigan, New Jersey, Pennsylvania, Texas, Utah, the Virgin Islands,** and **Wyoming**—rate an F. These states provide no means for a debtor to exempt any amount in a bank account or protect only a few specialized types of accounts such as college tuition accounts.

## STOPPING CREDITORS FROM THREATENING SEIZURE OF A DEBTOR'S HOUSEHOLD GOODS

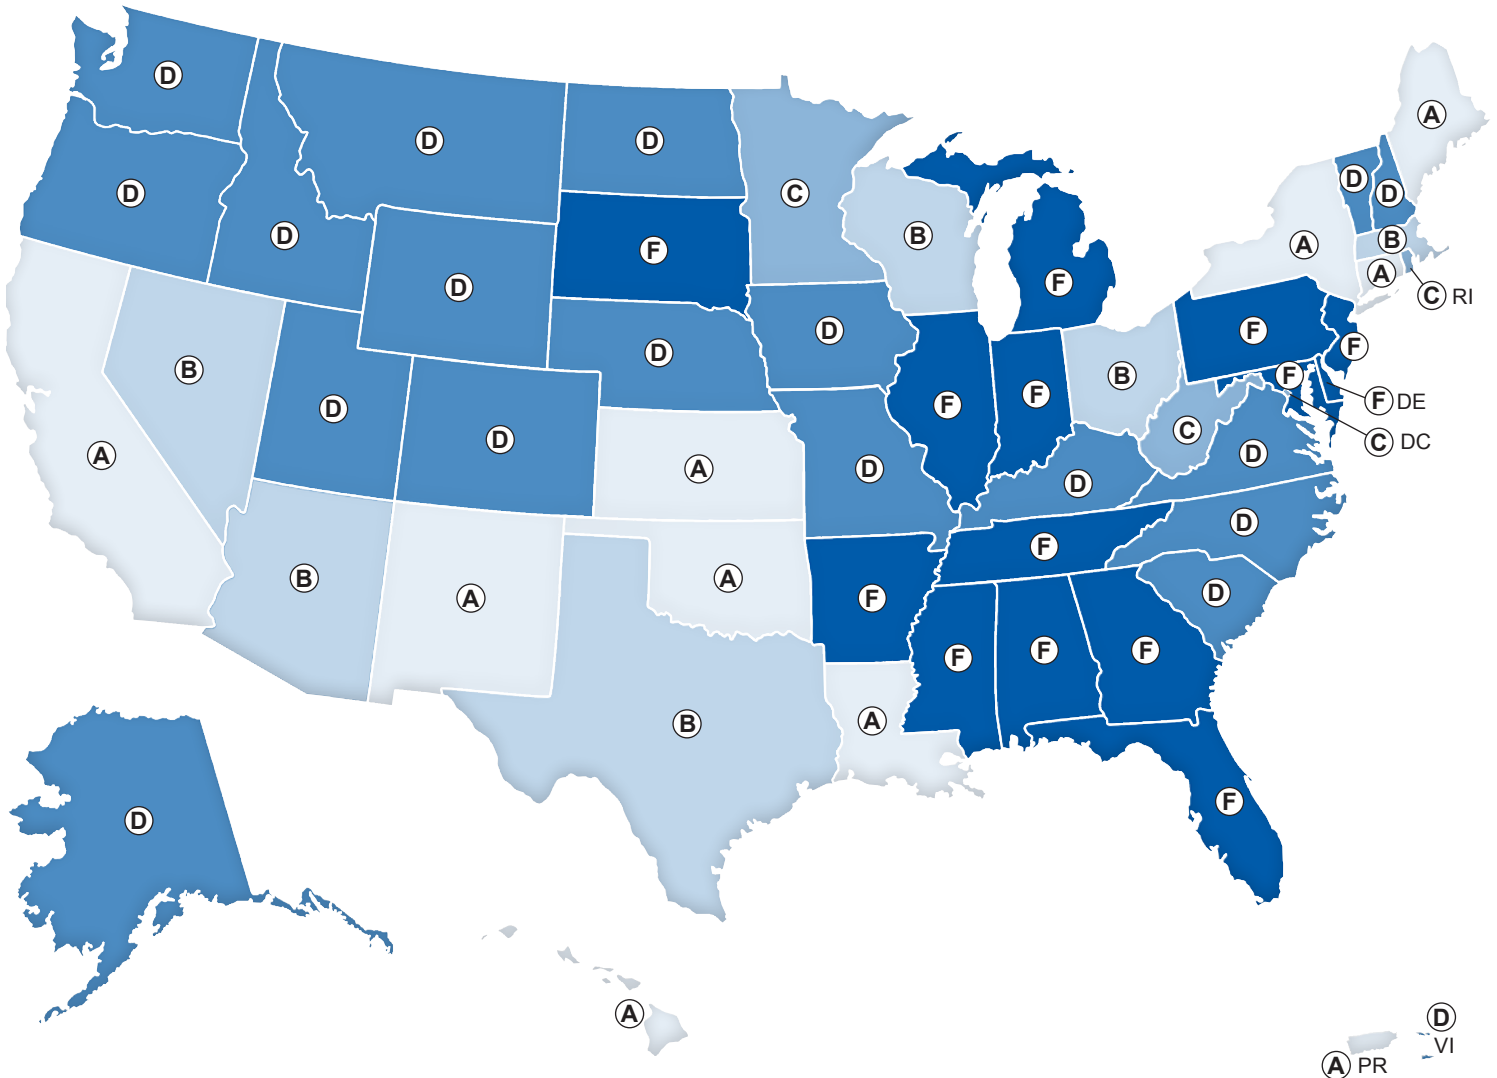

Household goods usually have little resale value. Seizing them and selling them does little to pay off a debt. The costs of seizure and sale can even exceed the proceeds of the sale.

Yet, while the consumer's household goods are of little use to the creditor, they are of enormous value to the consumer. Without beds, tables, chairs, a stove, a refrigerator, and other furniture and appliances, debtors cannot maintain a household for themselves and their dependents.

Threats to seize household goods are often merely a debt collector harassment tactic rather than an actual way of recovering debts. Yet the mere threat to take a consumer's household goods, even when the creditor rarely or never follows through, places tremendous pressure on families. The threat can induce consumers to pay old written-off credit card and other low-priority debts rather than high-priority obligations such as rent and utility bills.

## MAP 6 PROTECTION OF FAMILY HOUSEHOLD GOODS

-  **A** 10 states protect all necessary household goods
-  **B** 6 states protect household goods worth \$12,000 or more
-  **C** 4 states protect household goods worth between \$8,000 and \$11,999
-  **D** 19 states protect household goods worth between \$2,000 and \$7,999
-  **F** 14 states protect less than \$2,000 in household goods

**Table 5** lists the states that fall into each category. The ratings for GA, IN, ND, and TX are based in whole or in part on use of a wildcard (an exemption that can be used to protect items of the debtor's choice). In a number of other states, the wildcard was exhausted by applying it to a car or bank account. See our [Rating Criteria](#) for details and our [State Summaries](#) for state-by-state information.

TABLE 5 **Protection of Household Goods**

**NCLC's *Model Family Financial Protection Act* Recommendation:**  
**All household goods, but creditor can seek court order to seize any item worth over \$3,000**

STATE	AMOUNT OF PROTECTION
<b>"A" States Protect All Necessary Household Goods</b>	
California	All necessary household goods
Connecticut	All necessary household goods
Hawaii	All necessary household goods
Kansas	All necessary household goods
Louisiana	No dollar cap for extensive list of household goods used by debtor or family
Maine	No dollar cap
New Mexico	All furniture, with no dollar cap
New York	Extensive list of household goods, including all furniture, with no dollar cap
Oklahoma	All household and kitchen furniture
Puerto Rico	All necessary household goods
<b>"B" States Protect Household Goods Worth \$12,000 or More</b>	
Arizona	\$15,000
Massachusetts	\$15,000
Nevada	\$12,000
Ohio	\$14,875
Texas	\$85,000 (through use of a wildcard*)
Wisconsin	\$12,000
<b>"C" States Protect Household Goods Worth Between \$8,000 and \$11,999</b>	
District of Columbia	\$8,625
Minnesota	\$11,700
Rhode Island	\$9,600
West Virginia	\$8,000
STATE	AMOUNT OF PROTECTION
<b>"D" States Protect Household Goods Worth Between \$2,000 and \$7,999</b>	
Alaska	\$4,050
Colorado	\$6,000
Idaho	\$7,500
Iowa	\$7,000
Kentucky	\$3,000
Missouri	\$3,000
Montana	\$7,000
Nebraska	\$3,000
New Hampshire	\$3,500

STATE	AMOUNT OF PROTECTION
<b>“D” States Protect Household Goods Worth Between \$2,000 and \$7,999 (continued)</b>	
North Carolina	\$7,000
North Dakota	\$2,450 (through use of a wildcard*)
Oregon	\$3,000
South Carolina	\$5,375
Utah	\$4,000
Vermont	\$2,500
Virgin Islands	\$3,000
Virginia	\$5,000
Washington	\$6,500
Wyoming	\$4,000
<b>“F” States Protect Less than \$2,000 in Household Goods</b>	
Alabama	No protection
Arkansas	No protection
Delaware	No protection
Florida	No protection
Georgia	\$1,000 (through use of a wildcard*)
Illinois	No protection
Indiana	\$1,000 (through use of a wildcard*)
Maryland	\$1,000
Michigan	\$1,000
Mississippi	No protection
New Jersey	\$1,000
Pennsylvania	No protection
South Dakota	No protection
Tennessee	No protection

\*This table assumes that, if the state allows a “wildcard” exemption (one that is not limited to a particular category of property, but can be used to protect items of the debtor’s choice), the debtor will apply all or most of it first to protect a car up to \$15,000 in value, second to protect up to \$3,000 in a bank account, and third to protect household goods if the state does not provide an earmarked exemption for them. See our [Rating Criteria](#) for details and our [State Summaries](#) for state-by-state information.

**Best states:** The strongest approach is to protect all of a consumer’s necessary household goods and appliances. Eight jurisdictions—**California, Connecticut, Hawaii, Kansas, Maine** (with a cap on the amount of any individual item), **New Mexico, Oklahoma, and Puerto Rico**—follow this approach. Two additional jurisdictions—**New York and Louisiana**—achieve a similar result by exempting lists of household goods that include all or almost all of the essential items a family is likely to have. We have given each of these 10 states an A rating.

Other states allow the consumer to exempt household goods up to a dollar amount. Often a wildcard—an exemption that can be applied to protect items chosen by the debtor, up to a certain aggregate dollar amount—comes into play as well. In this report we have assumed, for the sake of uniformity, that the debtor would apply any wildcard first to protect a car and a basic amount in a bank account (see our [Rating Criteria](#)), and only apply any remaining amount to protect household goods. However, debtors would have to make their own individual choices. Some states also provide a separate exemption for certain specified household items, such as beds or certain appliances, so in those states a general exemption for household goods or a wildcard exemption may stretch a little farther. We give states a B rating if they protect household goods worth \$12,000 or more, a C rating if it is between \$8,000 and \$11,999, a D rating if it is between \$2,000 and \$7,999, and an F rating if the state protects less than \$2,000 in household goods.

**Worst states:** Fourteen jurisdictions—**Alabama, Arkansas, Delaware, Florida, Georgia, Illinois, Indiana, Maryland, Michigan, Mississippi, New Jersey, Pennsylvania, South Dakota, and Tennessee**—protect virtually none of the debtor’s household goods, and are rated F. For example, **Arkansas** provides a \$200 exemption (\$500 if the debtor is married or the head of a household), which must cover all personal property. **Delaware** provides just a \$500 exemption for all personal property except work tools, clothing, and bedding. This shocking indifference to debtors and their families means that creditors can clean out a family’s home even though used household goods typically have little or no resale value.

Some states allow a married couple to preserve jointly-owned personal property, such as household goods or a car, from creditors if only one of the two spouses owes the debt. This rule, called “tenancy by the entirety,” ameliorates the harshness of low household good exemptions in some states, but only in the case when only one of two spouses owes the debt. It provides no help to widows, widowers, divorced parents, or single individuals who incur debts.

NCLC’s [Model Family Financial Protection Act](#) protects all the debtor’s household goods but allows the creditor to ask a court to allow sale of any item worth more than \$3,000. This approach ensures that a family will not be stripped of essential items needed for daily life, yet at the same time does not protect high-cost luxury items.

## SEVERAL STATES MADE PROGRESS SINCE 2021, BUT MUCH REMAINS TO BE DONE

Not one state rates an A grade in each of the five areas of protection: wages, bank account, family home, family vehicle, and household goods. This means that there is no state where a person struggling to make ends meet can't be sure that one day a wage seizure won't drop their check below what they need to cover rent and food, or that the car they need to make it to work and keep their job won't be seized, or that the home they have sacrificed to buy won't be sold out from under them. However, several states made significant progress in 2022.

**Arizona** made major improvements through a 2022 ballot initiative that moved its wage seizure grade from a D to a B, its homestead protection from a B to an A, its family vehicle protection from a C to an A, its bank account protection from a D to an A and its household goods protection from a D to a B. This ballot initiative passed with 72% of votes cast saying yes—showing how decisively the public recognizes the need to rebalance a power dynamic that benefits debt collectors over people's needs to meet basic necessities.<sup>38</sup>

The amount of **California's** protection of the family bank account is tied to an annually adjusted amount set by the state Department of Social Services for use in determining eligibility for public benefits. It increased from \$1,826 for 2020 to \$1,947 for 2022. This change is too small to affect our rating for the state in this category, but it illustrates the importance of providing a method for updating exemption amounts to account for increases in the cost of living. California also won an increase in the protection of wages from seizure that will take effect in 2023.<sup>39</sup> While only states that ban wage seizure receive an A, the new law means that the amount protected from seizure will increase from \$560 a week in 2021 to \$744 a week in 2023. The new law also decreases the percentage of wages (from 50% to 40%) that can be seized over that base amount. For those living on the edge of poverty, even incremental improvements to the law can mean the difference between staying in a home or not or paying for medication or not.

**Colorado** increased its protection for the family home from \$75,000 to \$250,000, raising that grade from an F to a C. It also doubled its protection of the family car from \$7,500 to \$15,000, earning a grade increase from a C to an A, and moved its protection of bank accounts from a C to a B with a new \$2,500 protection.<sup>40</sup>

**Rhode Island** enacted a \$500 bank account protection.<sup>41</sup> This change is enough to raise the state's bank account grade from an F to a D, but a family will still be vulnerable to seizure of any amount over \$500.

**California, Colorado, the District of Columbia, Maine, Illinois, Maryland, Massachusetts, Minnesota, South Dakota, Virginia and Washington** all improved their protection of debtors' wages simply because the amount protected is tied to the higher of the state or federal minimum wage, and the state minimum wage increased. While some of these increases were small (for example, just \$9.60 a week in **Colorado**), the increase in **Illinois** was \$45 a week, enough for a budget-conscious family to pay their electric bill plus reduced-price school lunches for two children every week.<sup>42</sup> The Illinois increase pushed the state from a C to a B for wage protections.

**Indiana, Minnesota, Montana, Ohio, and Utah** all adjusted one or more exemptions upward to account for inflation, as required by statutes in those states. In **Indiana**, the upward adjustment was enough to move the state's grade for protection of the family car from a C to a B. **Missouri** created a new exemption for educational savings accounts,<sup>43</sup> a welcome improvement for families but not a topic of this report.

These changes are detailed in the [State Summaries](#), and an appendix to NCLC's [Collection Actions](#) summarizes state exemption laws in more detail.<sup>44</sup> All of these changes have been included in our ratings, even if the changes have not yet taken effect.

## RECOMMENDATIONS

### *What States Can Do to Protect Family Finances*

States have good reason to be concerned about protecting their residents from over-aggressive collection of judgments for consumer debts. The growing wealth gap, the high volume of collection lawsuits filed around the country,<sup>45</sup> and the soaring costs of necessities are all straining families to the breaking point and will make them increasingly vulnerable to seizure of essential wages and property. State exemption laws should:

- **Protect a living wage—at least \$1,000 per week, but more in high-cost states—for working debtors**, including those paid as independent contractors, so that families can meet basic needs and maintain a safe, decent standard of living within the community.
- **Automatically protect a reasonable amount of money on deposit** so that debtors have a cushion to cover several months of basic needs such as rent, daycare, utility bills, and commuting expenses.
- **Preserve the debtor's ability to work**, by protecting a working car, work tools and work equipment.

- **Protect the family’s housing and necessary household goods.**
- **Protect retirees from destitution** by restricting creditors’ ability to seize retirement funds.
- **Be automatically updated for inflation.**
- **Close loopholes that enable some lenders to evade exemption laws.** For example, states that allow lenders to take household goods as collateral enable these lenders to avoid state protections of household goods.
- **Be self-enforcing to the extent possible**, so that the debtor does not have to file complicated papers or attend court hearings.

Model language for states to achieve these goals is provided in the National Consumer Law Center’s [Model Family Financial Protection Act](#).

By updating their exemption laws, states can prevent creditors and debt buyers from reducing families to poverty. These protections also benefit society at large, by helping families regain their financial footing and contribute to the economy, keeping workers in the work force, helping families stay together, reducing the demand on funds for unemployment compensation and social services, and keeping money in local communities where it will aid economic recovery.

### *What Congress Can Do*

This report has focused on state laws, because states are the primary source of protections for debtors. But the federal government has an important role, too.

Since 1968, when the Consumer Credit Protection Act was passed, a federal law has placed a limit on how much a debt collector can take from a worker’s wages.<sup>46</sup> This limit is shockingly low – just 30 times the federal minimum wage, or \$217.50 today, not even half the poverty level for a family of four and nowhere close to protecting a living wage. (Fortunately, the federal law allows states to protect more of a worker’s wages, and, as detailed earlier in this report, more than two-thirds of the states have done so). Another significant flaw in the federal law is that it provides no protection for wages after they are deposited in the worker’s bank account, even if they are direct-deposited. Thus, even that \$217.50 could be seized from a bank account.

It is time for Congress to improve this basic protection. Congress should:

- **Increase the federal protection against wage seizure** to \$1,000 in order to protect a living wage.
- **Enact a self-executing protection of \$12,000 in a bank account from seizure**, so that families can cover several months of expenses in order to address income or expense shocks or preserve some funds for retirement.

---

Congress also writes the nation's bankruptcy laws, and controls how the government collects its own debts. Congress should also:

- **Restore the viability of bankruptcy as a fresh start** by simplifying the bankruptcy process, increasing asset and homestead protections, and giving student loan borrowers and those struggling with unaffordable criminal justice fines and fees the same fresh start opportunity as others.
- Instruct the federal government to **stop seizing federal safety net payments**, including the Earned Income Tax Credit, the Child Tax Credit, veterans benefits and Social Security benefits to repay government debts or old child support payments owed to state governments.

## ENDNOTES

1. According to MIT's living wage calculator, a living wage in Arizona for a family of four with one wage earner is \$1512.80 per week (\$37.82 per hour)—more than double the \$756.40 that Arizona's new law protects. <https://livingwage.mit.edu/>
2. Of the 227 million American adults who have credit reports (89% of all American adults), about 68 million had debt in collections as of 2019. Andrew Warren, Signe-Mary McKernan, and Breno Braga, *Urban Wire: Income and Wealth*. Data obtained in 2020 shows approximately the same number. Breno Braga, Alexander Carther, Cassandra Martinchek, Signe-Mary McKernan and Caleb Quakenbush, Urban Institute, “*Debt in America: An Interactive Map*” (Mar. 31, 2021) (showing a slightly lower percentage, 29%, of what is probably a slightly higher number of American adults with credit reports, given the overall increase in the U.S. population from 2019 to 2020). Yet in the 12 month period that ended on March 31, 2021, there were just 453,438 non-business bankruptcy filings—only 0.67% of the 68 million debtors. U.S. Courts, “*New Bankruptcy Filing Plummet 38.1 Percent*” (May 3, 2021). Even in 2010, in the midst of the Great Recession, less than 1.4 percent of the 116.7 million American households filed bankruptcy even though 39% of households had experienced financial distress. Michael Hurd and Susann Rohwedder, RAND Corp., *Effects of the Financial Crisis and Great Recession on American Households* (Nov. 2010).
3. Breno Braga, et al, *Debt in America: An Interactive Map* (Urban Institute, last updated March 31, 2021) (reporting that in 2020, 39% of individuals with a credit report living in predominantly non-white areas had one or more debts in collection on their credit report, compared to 24% of individuals living in predominantly white areas); Consumer Fin. Protection Bur., *Consumer Experiences with Debt Collection: Findings from the CFPB's Survey of Consumer Views on Debt*, 17 n.17, 18 (Jan. 2017) (44% of non-white respondents were contacted about a debt in collection, compared to 29% of white respondents). See also FINRA Investor Education Foundation, *Financial Capability in the United States 2016*, p. 27 (July 2016), (31% of African American respondents to the 2015 National Financial Capability Study reported being contacted by a debt collection agency in the past year, compared to 18% of all survey respondents).

## APPENDIX A

# RATING CRITERIA

**Family of four.** For purposes of this report, we assume that the debtor is the head of a family of four. Thus, if a state provides a higher exemption amount for a person who is the head of a family, we have used that amount in our ratings. A few states also provide small increases in their protection of wages or property when the debtor has dependent children. In those states, we have assumed that the debtor has two children.

Several jurisdictions provide an exemption for a car only if the debtor uses it to get to work. Since this exemption would be available for the typical working family, we have included those exemptions in this report. In some other states, an exemption for “tools of the trade” may apply to a car, but often the cases require the car to be used for more work-related functions than just getting to and from work. In this report we have assumed that any exemption for tools of the trade is not interpreted to be flexible enough to exempt a car that is used for commuting.

**Structure of state exemption laws and use of wildcards.** Some state exemption laws provide a list of property that debtors can preserve from their creditors, with a dollar cap for each category. Others provide a wildcard exemption of a certain dollar amount. Then the debtor chooses what specific items to protect. Some wildcards are limited to certain kinds of property, and some are available only if the debtor does not take advantage of some other exemption, usually the homestead exemption. Many states’ exemption schemes combine both a list of earmarked exemptions and a wildcard.

In order to treat these states uniformly, so that their results for debtors can be compared on a state-by-state basis, this report has employed certain assumptions. We assume that, if a wildcard is available, the debtor will apply it first to preserve a car worth up to \$15,000, since for so many debtors a working car is necessary to keep a job, buy groceries, and get health care. However, if the wildcard exemption is at least \$3,000 and the state does not offer an earmarked exemption for a bank account or household goods, we reserve \$1,000 of the wildcard for those purposes. If any amount of a wildcard remains after applying it to preserve a car worth up to \$15,000, we apply it next to a bank account, if the state allows it to be used for this purpose and if the state did not provide an earmarked exemption for a bank account. If any amount remains after preserving up to \$3,000 in a bank account, we apply the remainder to the debtor’s household goods. The reason for applying it last to household goods despite their importance for the debtor’s daily life is that they often have so little

resale value that the creditor will only threaten to seize them, so a debtor who has no other options may decide to run that risk.

In some states, a wildcard is available only if the debtor does not claim some other exemption, typically a homestead exemption. For purposes of our ratings of the state's protection of a car, a bank account, and household goods, we have assumed that the debtor has not claimed a homestead exemption. A few states offer a wildcard in the amount of any unused portion of certain earmarked exemptions for types of personal property. In these states, we have assumed that the debtor has not used an exemption for tools of the trade or crops, but has used the full exemption for a car, a bank account, and household goods.

**Wage seizure calculations.** In calculating the amount of wages protected from seizure, we have assumed that the debtor is working full-time at minimum wage and is the head of a four-person household that includes two dependent children. If the state law explicitly requires the state minimum wage rather than the federal minimum wage to be used in a particular calculation, we have done so. In the few states that provide that a calculation is to be based on the larger of the state or local minimum wage, we have used the state minimum. In New York, the state minimum wage varies based on the size and location of the employer, and in California it varies based on the size of the employer. In both cases we have used the highest minimum wage. For simplicity, our wage seizure calculations do not distinguish between gross and net wages. In drafting a wage seizure limit, these distinctions are important, because the exact calculations can make a significant difference.

**Median home values.** Our rating of the state's protection of the debtor's home is based on the extent to which the state's homestead exemption protects a median-priced home in the state. Prior to 2021, we based median home values on the U.S. Census Bureau's most recent American Community Survey. This report is usually released in the fall and reflects the previous year's median prices, broken down by state.<sup>1</sup> Thus, in our October 2020 report we used the median home values for 2019 that the Census Bureau had just released.

Unfortunately, the Census Bureau did not release an American Community Survey in fall 2021. We therefore turned to state-by-state home sale price data collected in by Zillow,<sup>2</sup> and determined the percentage by which home sale prices in each state increased from 2019 to 2020.<sup>3</sup> We then applied that percentage to

1. <https://data.census.gov/cedsci/table?q=Median%20home%20values&g=0100000US.04000.001&tid=ACSDT1Y2019.B25077&hidePreview=true>.

2. Zillow Group, Inc., "Housing Data" (Downloaded October 2021). NCLC downloaded data from "Zillow Home Value Index (ZHVI)," which provides monthly median home value estimates.

3. Since the American Community Survey's median home values are based on an average of the values reported month-by-month over the course of the year in question, we took the same

the American Community Survey's 2019 median home values, to estimate the values that the Census Bureau would have shown for 2020 if it had released an American Community Survey. For 2022 we have returned to using the American Community Survey's median home values for previous year.

In New York, where the exempt amount ranges from \$89,975 to \$179,975 depending on the county, we have chosen the exemption amount (\$179,975) that applies to the ten most populous counties. The average of those 10 counties' median home values was \$607,060 in 2021.<sup>4</sup>

For the Virgin Islands, a 2010 figure<sup>5</sup> is the latest available. To approximate the current median home value for 2021 we calculated an index for the average national increase between 2010 (the last time that ACS reported USVI data) and 2021 and then applied that to the 2010 ACS number to get a 2021 estimate. The result was a median home value of \$389,659.

**Other rules.** Some states provide higher exemption amounts for debtors who are elderly or disabled. In this report we have not used these higher amounts.

Some states allow married debtors to “stack” their exemptions. For example, if a state allowed a \$2,000 exemption for a car, each spouse might be able to exempt that amount and save a car worth \$4,000. The figures in this report are based on the individual exemption amounts unless otherwise stated.

Some states make a homestead exemption dependent in whole or in part on filing of a document declaring that the home is the consumer's homestead. In those states, we have assumed that the debtor has filed the required declaration.

**How we deal with ambiguities in exemption laws.** When there are ambiguities in state exemption laws, we have interpreted them in favor of a broader rather than a narrower exemption. For example, some state laws are not very clear about whether the state's protection of the debtor's wages continues after the wages have been paid and deposited in the debtor's bank account. If the statute is worded in a way that suggests that the protection might apply to deposited wages, for example by applying the exemption to wages that are “paid” as well as “payable,” we looked for court decisions addressing this question. If we found cases that provided any indication that the protection could be used to protect deposited wages, we rated the state as allowing this. Similarly, some states' exemption laws are not clear about whether a wildcard exemption can be used

---

approach with Zillow's data, averaging the monthly home sale prices it reported during 2020 and comparing that to the average of the monthly home sale prices it reported during 2019.

---

to protect a bank account. For example, the statute may provide that the wildcard exemption applies to “any real or personal property.” If we could find any cases that treated such a wildcard as available to protect a bank account, we treated it as available. If we have overlooked any decisions or statutes that address these or other questions, please bring them to our attention.

Interpreting ambiguous exemption laws broadly is in line with the general principle that state exemption laws are to be interpreted liberally in favor of the debtor. But it also means that, even in states that we rate highly, the exemption law may need improvements to make it clear that the broader reading is correct.

---

## APPENDIX B

# STATE SUMMARIES

This appendix shows, for each state plus the District of Columbia, Puerto Rico, and the Virgin Islands, how well the jurisdiction protects a family's basic income and assets from seizure by creditors and debt collectors. It analyzes the jurisdiction's exemption laws from the perspective of a consumer who is supporting two children and working full-time at minimum wage. It includes the overall grade for the state, and the grades for each of the five elements we rate: protection of a living wage, the home, a car, a basic amount in a bank account, and household goods.

# ALABAMA

A person who is supporting two children and working full-time at minimum wage can preserve . . .

	AMOUNT	CITATION	DETAILS	GRADE
Weekly wages of . . .	\$217.50	Ala. Code §§ 5-19-15, 6-10-7; Ala. Const. Art. X, § 204	By statute, state protects just the federal minimum, 75% of wages or 30 times the federal minimum wage. However, the state constitution provides a \$1,000 wildcard for personal property, and an intermediate state appellate court decision, <i>Renter's Realty v. Smith</i> , 522 So.3d 1060 (Ala. Ct. Civ. App. 2020), holds that this can be applied to exempt up to \$1,000 in wages in the hands of the debtor's employer. While the state supreme court has not yet spoken, the existence of this decision justifies raising the state's rating to a D.	D
A home worth . . .	\$16,450	Ala. Code § 6-10-2	This is 10% of the median home value in the state.	F
A car worth . . .	\$8,225	Ala. Code § 6-10-6	The only exemptions available for a car are a \$8,225 statutory wildcard,* adjusted triennially for inflation, and a \$1,000 constitutional wildcard. This uses all but \$1,000 of these wildcards.	C
A bank account worth . . .	\$1,000	Ala. Code § 6-10-6	This uses the remainder of the wildcards. In <i>In re Lively</i> , 583 BR 534 (Bankr. M.D. Ala. 2017), the court treated the statutory wildcard as available to protect a sum of money that a state court was holding for the debtor, so it appears that it can probably be used to protect a bank account.	C
Household goods worth . . .	No protection	Ala. Code § 6-10-6	If the wildcards are used to protect a \$8,225 car and \$1,000 in a bank account, nothing will be left to protect household goods.	F

\*A "wildcard" is an exemption that is not limited to a particular category of property, but can be used to protect items of the debtor's choice.

This summary and those for other jurisdictions are based on state exemption laws, other than those that apply only in bankruptcy court. It assumes that, if the state allows a "wildcard" exemption, the debtor will use it, or most of it, first to protect a car up to \$15,000, then to protect a bank account up to \$3,000, and then any remainder to protect household goods. As of 2022, the federal minimum wage is \$7.25 an hour.

# ALASKA

A person who is supporting two children and working full-time at minimum wage can preserve . . .

	AMOUNT	CITATION	DETAILS	GRADE
Weekly wages of . . .	\$743	Alaska Stat. §§ 09.38.030, 09.38.050; Alaska Admin. Code tit. 8, § 95.030	State protects \$743 (adjusted biennially for inflation) if the debtor is the sole support of a household.	B
A home worth . . .	\$72,900 (adjusted biennially for inflation)	Alaska Stat. § 09.38.010; Alaska Admin. Code tit. 8, § 95.030	This is 25% of the median home value in the state.	D
A car worth . . .	\$4,050 in car worth up to \$27,000 (adjusted biennially for inflation)	Alaska Stat. § 09.38.020; Alaska Admin. Code tit. 8, § 95.030	Earmarked exemption.	D
A bank account worth . . .	For a person who is not earning regular wages, \$2,970 is protected.	Alaska Stat. § 09.38.030; Alaska Admin. Code tit. 8, § 95.030	Earmarked exemption. It also appears that wages remain exempt after payment. <i>In re</i> Henrickson, 2007 WL 703620 (Bankr. D. Alaska Mar. 5, 2007), holds that assets that can be traced back to wages are exempt. In addition, the protection of \$743 of the debtor's wages applies to "earnings," defined as "money received by an individual . . ." (emphasis added). <i>Miller v. Monrean</i> , 507 P.2d 771 (Alaska 1973), was based on an earlier version of the statute but expresses a strong view that deposited wages should remain exempt.	B
Household goods worth . . .	\$4,050 (adjusted biennially for inflation)	Alaska Stat. § 09.38.030; Alaska Admin. Code tit. 8, § 95.030	Earmarked exemption.	D

\*A "wildcard" is an exemption that is not limited to a particular category of property, but can be used to protect items of the debtor's choice.

This summary and those for other jurisdictions are based on state exemption laws, other than those that apply only in bankruptcy court. It assumes that, if the state allows a "wildcard" exemption, the debtor will use it, or most of it, first to protect a car up to \$15,000, then to protect a bank account up to \$3,000, and then any remainder to protect household goods. As of 2022, the federal minimum wage is \$7.25 an hour.

# FLORIDA

A person who is supporting two children and working full-time at minimum wage can preserve . . .

	AMOUNT	CITATION	DETAILS	GRADE
Weekly wages of . . .	\$750	Fla. Stat. § 222.11	For head of household, the first \$750 is exempt; amounts over \$750 may be garnished only if debtor has agreed in writing.	B
A home worth . . .	No dollar cap	Fla. Const. art. X, § 4(a)(1); Fla. Stat. § 222.05	Limit on number of acres, but no dollar cap	A
A car worth . . .	\$5,000	Fla. Const. art. X, § (4)(a)(2); Fla. Stat. §§ 222.25	This combines an earmarked exemption of \$1,000 with a \$1,000 constitutional wildcard* and \$3,000 of a \$4,000 statutory wildcard that is available to a debtor who does not claim or benefit from the state homestead exemption.	C
A bank account worth . . .	\$1,000. In addition, wages remain exempt after deposit.	Fla. Const. art. X, § (4)(a)(2); Fla. Stat. §§ 222.11, 222.25	This makes use of the remaining \$1,000 of the statutory wildcard. <i>In re Rodale</i> , 452 B.R. 290 (Bankr. M.D. Fla. 2011) treats a “financial account” as “personal property” that can be protected by the \$4,000 wildcard. <i>See also In re Abbott</i> , 408 B.R. 903 (Bankr. S.D. Fla. 2009) (applying the wildcard exemption to a checking account).	C
Household goods worth . . .	No protection	Fla. Const. art. X, § (4)(a)(2); Fla. Stat. §§ 222.25	There is no earmarked exemption. If the wildcards are used to protect a \$5,000 car and \$1,000 in a bank account, nothing will be left to protect household goods.	F

\*A “wildcard” is an exemption that is not limited to a particular category of property, but can be used to protect items of the debtor’s choice.

This summary and those for other jurisdictions are based on state exemption laws, other than those that apply only in bankruptcy court. It assumes that, if the state allows a “wildcard” exemption, the debtor will use it, or most of it, first to protect a car up to \$15,000, then to protect a bank account up to \$3,000, and then any remainder to protect household goods. As of 2022, the federal minimum wage is \$7.25 an hour.

A home worth . . .	\$75,000	Miss. Code Ann. § 85-3-21, 85-3-1(d)	This is 52% of the median home value in the state.	C
A car worth . . .	\$9,000	Miss. Code Ann. § 85-3-1	The only exemption available for a car is a \$10,000 wildcard.* This uses all but \$1,000 of the wildcard.	C
A bank account worth . . .	\$1,000	Miss. Code Ann. § 85-3-1	This uses the remaining \$1,000 of the wildcard, which can be applied to "cash on hand."	C
Household goods worth . . .	No protection	Miss. Code Ann. § 85-3-1	If the wildcard is used to protect a \$9,000 car and \$1000 in a bank account, nothing will be left to protect household goods.	F

\*A "wildcard" is an exemption that is not limited to a particular category of property, but can be used to protect items of the debtor's choice.

This summary and those for other jurisdictions are based on state exemption laws, other than those that apply only in bankruptcy court. It assumes that, if the state allows a "wildcard" exemption, the debtor will use it, or most of it, first to protect a car up to \$15,000, then to protect a bank account up to \$3,000, and then any remainder to protect household goods. As of 2022, the federal minimum wage is \$7.25 an hour.
