Case Scenario

- Sheila Robinson comes into your office on December 10 and tells you that her family's gas service was terminated around a month ago because she owes over \$2,000 in back bills. She says that she has been unable to keep up with her bills and seems very depressed.
- She has a gas furnace and gas stove, so her family does not have heat, hot water, or the ability to cook. She owes about \$800 on her electric bill and fears she will get a shut-off notice for that soon too, which would leave her family without light and refrigeration.
- Ms. Robinson's family includes herself, her nine-year old daughter, her seven-year-old son, her sister, and her sister's newborn infant. The family's income consists of TAFDC and her sister's SSI check.

Triad Step #1: Protections

Serious illness

- Is someone seriously ill? Ask for ANY physical or mental illness
- Any letter from doctor/P.A./N.P. is enough to **protect** service or get service **restored**
- **Company** must challenge letter at DPU if it questions
- Letters good 90 days (can be renewed) or 180 days (chronic); **financial hardship** required
- Service can be restored, should seek the protection ASAP and within 90 days of utility disconnection

Step #1: Protections

Winter Moratorium

- In effect from Nov. 15 to March 15
- Winter moratorium on terminating **heat-related** service, Nov. 15 to March 15 (usually extended to April 1)
- Must demonstrate **financial hardship**
- Service restored if terminated during moratorium

Step #1: Protections

Infant under 12 months

- Is there a child under 12 months in the home?
- Protection time-limited
- Must demonstrate **financial hardship**
- Prevents termination and restores service

Step #1: Protections

Elder protections

- Are all **adults** in the home 65 or over?
(Minor = under the age of 18)
- Notify the company
- No terminations allowed, unless utility gets approval from DPU. **No financial hardship required.**
- No termination at all if low-income
- Utility companies must provide 3rd party notice, on request
- Caution re Liens: Utility companies may take liens on homeowners
(seek additional support to learn if homestead exemption or other protections apply)

Summary of Protections

PROTECTION	REQUIREMENT
Elders	■ All adult household members must be 65 or older. ■ Household must notify company. ■ No proof of financial hardship required; company must get DPU permission to terminate. ■ IF there is a financial hardship, termination is absolutely prohibited.
Serious Illness	■ Must show that someone (customer or family member) is seriously ill by submitting a letter from doctor/nurse practitioner or physician's assistant. ■ Must demonstrate financial hardship. ■ Letter must be renewed every 90 days or every 180 days for a “chronic” illness.
Winter Moratorium	■ Applies to gas (if used to heat) or electricity (if used to operate furnace, boiler, thermostats, or heating controls). ■ Runs from November 15 – March 15 (often extended). ■ Must demonstrate financial hardship.
Infant	■ An infant under the age of 12 months must be living in the household. ■ Must submit birth certificate, baptismal certificate, or other reasonable proof of age. ■ Must demonstrate financial hardship.

Step #2: Reducing Bills

Discount rates (regulated electric & gas):

- Can save 25% to 71% on bills
- Eligibility: Receipt of benefits, e.g., HEAP/fuel assistance, public/subsidized housing, SNAP, TAFDC, SSI, veterans' benefits
- Eligibility determination:
 - Apply directly, *or*
 - HEAP/ fuel assistance *or*
 - Auto enrollment if TAFDC, SNAP, MassHealth, and EAEDC
- Companies put customers on discount “on demand” ([M.G.L. c. 164, §1F\(4\)\(ii\)](#))
- [Retroactive discounts](#): contact NCLC for help

Tiered Discount Rate National Grid Electric

% of Federal Poverty Level (FPL)	Discount %
0 to 100% FPL	71%
100 to 125% FPL	64%
125 to 150% FPL	57%
150 to 200% FPL	43%
200% FPL to 60% SMI	32%

Step #2: Reducing Bills

Arrearage management programs (AMPs)

- All utility companies must offer to all low-income customers in arrears
- Customer makes equal monthly payments (budget plans next slide)
- Arrearage credits applied monthly

Terms of AMPs?

- Each utility is slightly different (e.g., Eversource cap of \$12,000, Berkshire Gas cap of \$3,000)
- Different options to re-enroll after dropping out of AMP, may have to make up some missed payments
- [Summary of AMP terms by company.](#)

Step #2: Reducing Bills

Budget plans

- Spreads out estimated usage into equal payments that periodically adjust based on actual usage
- All companies must offer budget plans
- Can be helpful in avoiding huge bills
- May still lead to “catch up” bills

Step #2: Reducing Bills

Payment plans

- All companies must offer payment plans (prior to termination)
 - *At least* 4 months
 - Utilities may be flexible
- Post-termination payment plans: less defined
- “Cromwell” waivers
- Make sure payment plan is reasonable and affordable

3-Minute Break

Step #3: Paying Bills

- HEAP/Fuel assistance
 - [Online application](#)
 - [Cold Relief brochure](#)
- RAFT (Residential Assistance for Families in Transition)
 - [Rental Assistance central application](#)
 - Can be used for utility arrears if shut off notice

Putting Theory Into Practice

Consult resources

Resolving disputes:

- Call the utility company first

 - DPUConsumer.Complaints@mass.gov
- Informal process, customers and non-attorney advocates may file complaints

Different Ways to Buy Electric and Gas Supply

Either one of these -

**Utility company
(distribution utility, IOU)**

**Community Choice Aggregation
(CCA, municipal aggregation)**

**Non-utility energy
supply company
(competitive supply company)**

Or this, in some areas -

**Municipal Utilities in
some cities and towns
(e.g., Braintree,
Chicopee, Holyoke,
Middleborough, North
Attleborough,
Peabody, Reading,
Wakefield, etc.)**

Competitive Energy Supply — Buyer Beware

- Mass. deregulated its electricity supply market in 1997 and market for gas soon after that
- Purpose of deregulation was to spur innovation and competition but not what has resulted
- The individual market for competitive energy supply is almost always a bad deal. Large & numerous losers. Small & rare winners.
 - Municipal aggregation is different—where municipalities buy in bulk from a supplier; is often in fact cheaper for consumers
 - [City of Boston municipal aggregation info](#)
- [Mass. AGO report](#) found that individual residential customers who received their electricity from competitive suppliers paid over \$577 million more on their bills since 2015

Predatory Energy Supply Sales

- Targeting of vulnerable populations—elders, LEP individuals, low-income communities
- Reverse redlining, targeting communities of color
- Use of deceptive tactics in door-to-door marketing and telemarketing
 - Misrepresentations that marketer is from or associated with the utility
 - Misrepresentations that customer will save money
- Slamming – Switching customers without knowledge or consent
- Community and Rooftop Solar – legitimate subsidized programs exist, but so do predatory and deceptive sales practices.
