

May 29, 2026

The Honorable Mike Johnson  
Speaker  
U.S. House of Representatives  
Washington, DC 20515

The Honorable Hakeem Jeffries  
Minority Leader  
U.S. House of Representatives  
Washington, DC 20515

To Speaker Johnson and Minority Leader Jeffries,

We – the National Low Income Housing Coalition, National League of Cities, National Association of Counties, Enterprise Community Partners, and the 557 additional national, state, and local organizations listed below – **urge you to include the “Reforming Disaster Recovery Act,” in the bipartisan “21st Century ROAD to Housing Act.”** This bill was included in the housing package that passed out of the Senate late last year. The Reforming Disaster Recovery Act was introduced last session by Senators Brian Schatz (D-HI), Susan Collins (R-ME), Patty Murray (D-WA), Cindy Hyde-Smith (R-MS), Ron Wyden (D-OR), Roger Wicker (R-MS), Chris Van Hollen (D-MD), Bill Cassidy (R-LA), Jon Tester (D-MT), Thom Tillis (R-NC), Ben Ray Lujan (D-NM), Todd Young (R-IN), Cory Booker (D-NJ), and Alex Padilla (D-CA). This bipartisan legislation will make the flow of disaster recovery funds faster, more equitable, and more accountable to taxpayers. The bill was also included in the Senate Transportation, Housing, and Urban Development appropriation bill for FY 2023, and the House version of the FY 2023 National Defense Authorization Act (NDAA).

Millions of disaster survivors across the country are facing catastrophic, life-threatening, extreme weather events, including stronger hurricanes, extreme heat, unprecedented drought, and severe wildfires. In 2024 and 2025, there were 50 separate billion-dollar disasters, including extreme tornado outbreaks across the Central and Southern United States, and across the central U.S., as well as devastating wildfires in New Mexico, severe flooding in California, and extreme blizzards in the Pacific Northwest, six Hurricanes impacting the Southeast. These disasters come after multiple other disasters in 2023, the catastrophic Maui Wildfires, Typhoon Mawar in the Pacific, Hurricane Idalia, deadly winter storms, and tornado outbreaks leaving behind devastated households and communities across the country.

If enacted, the Reforming Disaster Recovery Act would permanently authorize the U.S. Department of Housing and Urban Development’s (HUD)’s Community Development Block Grant - Disaster Recovery (CDBG-DR) program, which provides flexible grants to help cities, counties, and states recover from Presidentially declared disasters and rebuild affordable housing and other infrastructure after a disaster, especially in low-income areas.

Insurance and short-term federal assistance are unable to cover the cost of a disaster for many low-income homeowners, renters, and people experiencing homelessness. State and local governments often struggle to repair infrastructure and facilitate economic development in low-income communities. Many of the lowest-income households – who are disproportionately affected by disasters but receive the least amount of assistance afterward – face homelessness or displacement as shorter-term assistance programs end. As the only source for federal long-term recovery funds, CDBG-DR can fill this gap in assistance and ensure every disaster survivor and their communities are able to fully and equitably recover.

Although other federal agencies have standing resources to quickly serve communities when disasters strike, CDBG-DR funds are only made available through special congressional approval. Due to the program's lack of permanent authorization, HUD must write a new set of regulations to guide state and local grantees each time it appropriates funds. This ad hoc system can delay funding for over three years after a disaster occurs. As a result, recovery timelines are lengthened, economies stagnate, and homelessness and out-migration from disaster-impacted areas increase.

The Reforming Disaster Recovery Act will help ensure that long-term disaster recovery funds are made quickly available after disasters and that all disaster survivors and their communities can fully and equitably recover. The 2019 version of the bill was unanimously passed out of the House Financial Services Committee and was approved by the House of Representatives through a bipartisan vote. HUD and the Government Accountability Office under the past two administrations have agreed that permanently authorizing the CDBG-DR program would vastly improve how the country's most important long-term disaster recovery program operates. In addition to codifying the CDBG-DR program in statute, the bill contains critical reforms to help ensure a more efficient and responsive disaster recovery and mitigate future risks by:

- Requiring that the use of funds are balanced between infrastructure and housing;
- Ensuring that housing funds are spent proportionally between homeowners and renters;
- Requiring HUD to release information on disaster recovery to the public;
- Requiring federal agencies to share all data to improve coordination of the disaster recovery process, as well as increase oversight and data transparency;
- Authorizing the creation of a CDBG-DR Reserve Fund that can quickly disperse initial recovery funding post-disaster without waiting for a new congressional action;
- Developing a formula to allocate assistance to the most impacted areas;
- Maintaining the current requirement that 70% of the funds benefit Low and Moderate Income households;
- Creating a capacity building and technical assistance set-aside for grantees;
- Ensuring that state action plans receive at least 14 days for public comment and requiring states to engage with stakeholders in the impacted areas;
- Promoting disaster mitigation and resiliency by establishing an Office of Disaster Recovery and Resilient Communities at HUD;
- Creating a significant set-aside for disaster mitigation activities; and

- Creating specific minimum construction standards for areas designated as hazard prone by HUD and FEMA.

Again, we urge you to support this important bipartisan legislation. By passing the Reforming Disaster Recovery, Congress can provide meaningful relief to the millions of disaster survivors most in need.

Sincerely,

***National and Multistate Organizations
